READ—

Correspondence ending with No. 3199—229, dated 10th November 1897, from the Comptroller to the Government of Mysore, furnishing his opinion on the subject of travelling allowances payable to gollars accompanying specie remittances from one district to another or to the State Huzur Treasury

No. 10683-91—P. & A. 868, DATED BANGALORE, 2ND MARCH 1898.

ORDER THEREON.—Government are pleased to direct that the following addition be made to Article 528 of the Mysore Service Regulations.

Below "Police Dafadars and Constables travelling beyond their jurisdiction" insert "Gollars accompanying remittances from one district to another or to the Huzur Treasury at Bangalore"..... ....."actual expense not exceeding one anna".

C. SREENIVASIENGAR, *Secy. to Govt., Gen. & Rev. Depts.*

To—The Comptroller to the Government of Mysore.
The Deputy Commissioners of Districts.

READ:—

Letter No. 1067, dated 2nd March 1898, from the First Assistant to the Resident in Mysore.

I am directed to invite a reference to paragraph 5 of the Government of India, Home Department letter No. 103, dated the 17th January last, (a copy of which was forwarded with my letter No. 110 (Camp), dated the 29th idem) in which the Government of India suggested that the Resident should enter into communication with other Local Governments and Administrations concerned as to the manner in which the police should co-operate when a case of re-booking is detected.

2. The Government of Madras were accordingly addressed and in reply have requested that in the event of a person from an infected area alighting at a station in Mysore and re-booking within 48 hours of alighting to a station in the Madras Presidency, the number of the ticket obtained by such passengers and other particulars that will suffice to identify him on arrival at destination may be telegraphed to the Station Master in charge of the station of destination, except in the case of the marginally noted Plague inspection stations where this information should be telgraphed to the Medical Officer in charge.

3. The necessary instructions are being issued to Mr. Hewetson, Superintendent of Police, and the duty of telegraphing to the various stations in the Madras Presidency cases of re-booking will devolve on the Railway Police, but the co-operation of the Durbar in detecting such cases is invited. A person may come from an infected area and alight at some small station between Harihar and Yeswanthpur. The fact that he has come from an infected area will be known by his having a punch-marked ticket he will be questioned by the Railway and Durbar Police and his name, address and other particulars will be taken down by the latter. He may proceed to some village in the vicinity of the station at which he has alighted, and, under orders issued by the Durbar, he will, it is understood, be visited there daily. His object may have been to conceal the fact that he has come from an infected area, and he may in a day or two return either to the station at which he had alighted, or to an adjacent station, and there re-book to some place in Madras or to some other place in Mysore. If he re-book at the station at which he originally alighted, he might or might not be recognised by the Railway Police on duty there; if he re-booked at some other station his recognition by the Railway Police would be extremely difficult, if not impossible, but in either event the Durbar might assist in detecting the re-booking if the official whose duty it had been to visit such person at his temporary residence reported immediately that he had left such residence.

4. A case might occur of a person from an infected area alighting at some station between Bangalore and Nanjangud (which is within the Durbar's jurisdiction), and re-booking thence to some place in Madras in order to conceal the fact that he had come from an infected area. Such an event is perhaps improbable but, should a case occur, I am to request that information may be telegraphed as desired by the Madras Government in paragraph 2 *supra*.

5. In conclusion, I am to forward for the information of the Durbar a copy of Madras Government Proceedings No. 10 P, dated the 8th February 1898.

No. 10787-88—Mis. F. 21-96, dated Bangalore, 4th March 1898.

Letter No. 276—Mis. 166, dated 25th February 1898, from Mr. V. P. Madhava Rao in the matter of his designation as Officer in administrative charge of Plague Prevention Measures in Mysore.

No. 10861-62—Mis. F. 21-96, dated Bangalore, 5th March 1898.

Order thereon.—Under the circumstances represented by Mr. Madhava Rao, the Government have no objection to his styling himself as "Officer in administrative charge of Plague Prevention Measures" and to his instructing Deputy Commissioners and other officers to address all communications relating to plague matters accordingly.

No. 11070-78—Mis. 2276, dated Bangalore, 8th March 1898.

Order.—At present, there has been delay in some instances in reporting cases of cholera to the Dewan's office by the Deputy Commissioners of districts. This is perhaps due to the fact that the information is first received in the district office, where a report in the prescribed form is prepared for submission to Government. With a view to avoid such delays in future and to enable Government to have the earliest information of such cases, the Deputy Commissioners of districts are requested to issue instructions at once to Amildars and Deputy Amildars in their respective districts, directing them to submit simultaneously two copies of such reports, one to the district office and the other to this office. This does not however obviate the necessity of a consolidated daily report being submitted by Deputy Commissioners as heretofore.

2. In the "Remarks" column of the form, the following words should be added after the word "Remarks," and the answer thereby required should invariably be given.

"as to the steps taken to arrest the spread of the disease."

Letter from the Excise Commissioner in Mysore, No. 6221-264, dated 5th February 1898, submitting, with reference to Government Proceedings No. 5569-72—Ex. 199, dated 21st December 1897, a memorandum containing the combined proposals of the Inspector General of Police, Conservator of Forests and himself in regard to the formation of a park in the compound of the old Palace and the utilization of the conservancy establishment attached thereto.

(*Enclosure of the above.*)

MEMORANDUM.

It was arranged that the Inspector General of Police, Conservator of Forests and Excise Commissioner should meet on the grounds of the old Palace in the Bangalore Fort, this morning at 7-30, for the purpose of submitting to Government, after consultation with one another, definite proposals regarding—

(1) The formation of a park in the compound of the said Palace.

(2) The desirability or otherwise of dispensing with the services of watchman and watcher, or one of them, and

(3) The appointment of gardeners, as per Government Proceedings No. 5569-72—Ex. 199, dated 21st December 1897.

2. Accordingly the Conservator of Forests and Excise Commissioner met, but the Inspector General of Police, owing to the pressure of other urgent work, sent his Assistant who intimated that the Inspector General's opinion is, that in the proposals to be submitted to Government in the matter, provision should be made for the conservancy of the temple which is within the Palace compounds.

3. Mr. Ricketts, late Inspector General of Forests and Excise Commissioner, recommended the formation of a park in the said Palace compound in view of the lively interest taken by both Europeans and Natives in the Palace on account of its historical importance. The formation of a park, secured by an ornamental wall similar to the compound wall of the Sanskrit College, opposite to the Palace, would considerably add to the appearance of the ancient building. It has been ascertained that the Executive Engineer has already prepared an estimate for the compound wall which is required on three sides. To form a Park on a small scale, getting the supply of plants and trees from the Superintendent of Government Gardens, at least two gardeners are required.

The Provincial Budget Estimates for 1897-98 show that an "Establishment for the conservancy of the Palace in the Bangalore Fort" at a monthly cost of Rs. 18 exists as per particulars below:—

| | | Rs. |
|---|---|---|
| 1 | Watchman ... ... | 10 |
| 1 | Watcher ... ... | 5 |
| 1 | Sweeper ... ... | 3 |
| | | 18 |

4. Since the Palace buildings have been occupied by the offices of the Inspector General of Police, Excise Commissioner and Conservator of Forests, and as the offices of the Deputy and Assistant Inspectors of Schools are also to be shortly located in them, the necessity for the aforesaid conservancy establishment has ceased to exist. The amount sanctioned for it may therefore be appropriately utilized for the employment of the following establishment on account of the formation of the park :—

| | | Rs. |
|---|---|---|
| 1 | Head gardener on ... ... | 8 |
| 1 | Gardener on ... ... | 6 |
| 1 | Sweeper on ... ... | 4 |
| | | 18 |

5. The temple in question being a Muzrai institution, the requisite watcher for it ought to be paid from Muzrai funds. But as the Muzrai Superintendent says in his letter to Government that no Muzrai funds are available to employ a separate watcher for the temple, and that a watcher is wanted to prevent intrusion of non-Hindus into the precincts of the temple, the proposed gardeners may be required to prevent such intrusion, and also to make a nice garden in the compound of the temple as well, the temple being situated within the grounds of the Pal..ce. Should, however, the Government consider it necessary that a watcher be employed exclusively for the temple, the sum of Rs. 4 above proposed for a sweeper or Rs. 5, now allowed for a watcher, may be appropriated for the purpose, the amount being deducted from the grant for the Palace buildings and transferred to the temple. The proposed tw gardeners should, in that case, be required to do both gardening and sweeping.

6. The grounds should be laid out in an artistic and suitable manner, not attempting too much as regards flowers, but having masses of foliage plants and flowering shrubs. On the scheme being sanctioned by Government, Mr. Cameron will be consulted and details arranged.

Letter from the Muzrai Superintendent, No. 1119, dated 23rd February 1898, urging that, as proposed in para 5 of the joint memorandum referred to above, a servant on Rs. 5 may be employed exclusively to take care of the Sri Venkataramanaswami temple and the garden within its compound.

No. 11096-101—Mis. 2289, DATED BANGALORE, 8TH MARCH 1898.

ORDER THEREON.—On a careful consideration of the proposals made by the several officers in the letters read above, Government agree with the Muzrai Superintendent that the protection of the temple premises having devolved on Government under whose orders the high compound wall which was around the temple was pulled down as not in keeping with the appearance of the adjoining Palace, a servant is required exclusively to look after the temple and they accordingly direct that the temple watcher on Rs. 5 be left alone and the remaining amount, *viz.* Rs. 13, available out of the conservancy establishment allowed to the old Palace utilized in the manner proposed in the joint memorandum, towards the employment of two gardeners.

READ :—
Letter No. 725—591, dated 13th December 1897, from the Deputy Commissioner, Shimoga district, bringing to notice the hardship experienced by the official class by the existing rules of the Mysore Service Regulations and suggesting that the rule of having to travel more than 20 miles a day to entitle an official to mileage may be abrogated in the case of officials and the rate of 4 annas a mile be reduced to 1¼ annas a mile in the maidan and 2 annas in the Malnad, the daily batta being always allowed in addition.

No. 10941-76—P. & A. 896, DATED BANGALORE, 8TH MARCH 1898.

ORDER THEREON.—The rates of mileage at present allowed to *Non-Gazetted* officers and menial servants under the Mysore Service Regulations, seem too liberal, while those of daily batta seem too low. The rates of mileage and daily batta prescribed for such classess of officials and servants in British India, in Articles 1127

and 1167 of the British Civil Service Regulations, seem to be better. The Comptroller to the Government of Mysore, the other Heads of Departments and the Deputy Commissioners are therefore requested to favor the Government with their views as to whether the adoption of the British rules in their entirety is not desirable.

Letter No. 16—E., dated the 13th July 1896, from the Secretary to the Board of Examiners, bringing to notice that owing to the lowering of the standard of the Local Service Examinations, the first class passes predominate over those of the second, and requesting that the minimum number of marks required for a pass in each subject may be raised, and submitting proposals for revising the examinations in other respects.

No. 11180—MIS. F. 349-92, DATED BANGALORE, 10TH MARCH 1898.

ORDER THEREON.—The recommendation in respect of increasing the minima required for passing the Local Service Examinations is accepted, and a Notification as hereunder will be published in the *Gazette*.

2. The other proposals referred to in the letter read above, are under the consideration of Government and will be dealt with in due course.

NOTIFICATION.

The following rule regarding the minima required for passing the Mysore Local Service Examinations will be substituted for Rule 5 of the Rules published with Government Notification No. 18948—G. F. 349-92, dated the 15th May 1893; and will come into operation at the next ensuing examinations.

"5. Candidates who may obtain not less than one-third of the maximum number of marks prescribed for each subject and not less than two-fifths of the total number of marks for all the subjects of an examination, shall be declared to have passed that examination. The successful candidates in the Revenue, Civil and Criminal Examinations will be placed in the first or second class, according as they obtain not less than three-fifths or two-fifths of the aggregate number of marks in all the subjects. The arrangement in the first class shall be in the order of merit."

READ :—

Letter No. 357—Mis. 210, dated 3rd March 1898, from the Officer in administrative charge of Plague Prevention Measures.

I have the honor to forward copy of letter No 31, dated 27th February 1898, from the Senior Surgeon and Sanitary Commissioner with the Government, regarding the proposed training of a number of respectable women of the different castes for plague duty. I consulted Doctor Benson on the subject at Mysore to-day and inspected six women of different castes selected by him for duty in the different wards of the Mysore City. Mussalmans, Brahmins and Lingayets were not represented. It was decided that for the present ten intelligent women from the different communities should be selected and given a training in counting the pulse, taking the temperature and given instruction in the symptoms generally of fever and of plague with a view to their being utilized in the inspection of houses under the Supervision System. As there is not likely to be an immediate call for their services it was further decided that they might be trained in general nursing also in the local hospital and their course made to extend over three months.

2. The women selected may get Rs. 7 per mensem while under instruction. At the end of the three months they will be discharged, but will be liable to be called out for duty at any time if there should be necessity for their services, their pay while on the reserve list being fixed at Rs. 2 per mensem.

3. In Bangalore 14 such nurses will have to be enlisted As the "Supervision System" is being introduced there, they will be first instructed in learning the symptoms of plague and immediately sent out to go with the inspecting parties. The mornings may be devoted to inspection and afternoons to receiving instruction in the hospital. Their pay may be fixed at Rs. 7 for the present and raised to Rs. 8 to 10 as they show progress in their lessons and their services are required for actual plague duty.

4. In submitting the above scheme for the sanction of Government I beg that the necessary funds may be placed at the disposal of the Senior Surgeon for carrying it out.

(ENCLOSURE TO THE ABOVE.)

From the Senior Surgeon and Sanitary Commissioner with the Government of Mysore.
To the Plague Commissioner, Bangalore.

No. 31, dated 27th February 1898.

I have the honor to draw your attention to the fact that at present there are no less than six midwives employed on plague duty, that is, in the inspection of female passengers at Haribar, Yeswanthpur, Mysore and Gorbidnur and two at Bowringpet, the result being that their services are almost entirely lost to the inhabitants of the towns they live in, as they are more or less unable to discharge both duties. At each of the places where they are employed there is in addition an Assistant or Sub-Assistant Surgeon, and in two cases a lady apothecary to whom they report any case of sickness they may come across. Consequently their duties are not of a very responsible nature; and it is questionable whether they would not be better employed in their legitimate duties. In view of the introduction of the Supervision System into the City of Bangalore a number of women will be required, as it is highly probable that men will not be allowed into a considerable number of houses. To supply midwives to meet these requirements is simply impossible, as they are not to be had. I would, therefore, suggest with your approval that a class should be opened at the maternity where intelligent women selected by the Rais of different communities might be trained sufficiently to be able to count the pulse and take the temperature and be acquainted with the general symptoms of fever and of plague. A course of, say, a fortnight would, in my opinion, be ample; and when qualified they might take the place of the midwives at the places already noted, and there might be, say, one woman to every sub division of the town, where they would of course be placed under the orders of the Rais of that sub-division; and it would be their duty to report to the Rais any case of fever or other illness of a suspicious nature. My object in making these suggestions is first to allow of the midwives already engaged on plague duty to attend to their legitimate work, secondly to popularise as much as possible the system of supervision within the City of Bangalore, as I am convinced that the leading members of the several communities would more readily carry out the system of supervision, if women, whom they know, were available for work under them in their respective districts.

Regarding their pay, I am of opinion that a monthly salary of not more than Rs. 8 would be ample. However, I leave this point for you to decide.

No. 11213-15—MIS. F. 21-96, DATED BANGALORE, 11TH MARCH 1898.

ORDER THEREON.—The proposed selection of ten women from the different communities for the Mysore City and of fourteen for the Bangalore City, and their training for Plague duty in connection with inspections, &c., are approved. The former will receive a pay of Rs. 7 each per mensem during the first three months, when they will be under training, and also whenever they are called out for duty, and Rs. 2 while on the reserve list. The pay of the latter will be fixed for the present at Rs. 7 per mensem, and raised to Rs. 8 rising to Rs. 10 if they show progress in their lessons and their services are required for actual plague duty.

No. 11349-84—Mis. 2424, dated Bangalore, 14th March 1898.

Order.—In communicating to Heads of Departments the following Note by the Officiating Dewan, Government desire that the instructions therein contained be strictly observed, and that the number of days during which each Departmental Head was on tour be noted in his future Annual Administration Reports—

NOTE.

"There are now no standing orders requiring Heads of Departments to submit, for the information of Government, notes of inspection made by them while moving about the districts. Nor is there any order making it imperative on them to make periodical or annual inspections. When reviewing some of the Departmental reports, the Government had recently to notice that the inspection work was either neglected or not adequately performed. It is scarcely necessary to observe that there is no part of the duty of the Head of a Department more important than that of watching, controlling and superintending the operations of his subordinates; and to enable him to do this efficiently, and for the acquisition of that knowledge of the country and of the people which is indispensable for the full comprehension of many questions which must come up before him for decision, an annual or occasional tour of inspection is most necessary. I would request Heads of Departments to make timely arrangements for making their annual inspections regularly at the proper season and to submit to Government notes recorded by them on matters of importance."

(1) *Letter No.* 612, *dated 21st February* 1896, *from the First Assistant to the Resident in Mysore.*

In continuation of my letter No. 367, dated the 4th instant, I am directed to forward a copy of a letter No. 1223 of the 17th ultimo, from the Postmaster, Bangalore, to the address of the Postmaster-General, Madras, with its enclosure, and to request that the circumstances under which books of the kind described by the Postmaster are sent through the Post Office, "On Mysore Government Service," may be kindly explained.

(ENCLOSURE TO THE ABOVE LETTER.)

*Copy of a communication No.* 1223, *dated 17th January* 1896, *from the Postmaster, Bangalore, to the Postmaster-General, Madras.*

I beg to enclose herein the covering of an article closed against inspection and superscribed "On Mysore Government Service," but which contained the following books :—

"The Soiled Dove."
"Skittles in Paris."
"Anonyma, or Fair but Frail."

The article was posted on the 12th February 1896 by T. Shama Rao, Clerk, No. 5 Sub-Division, in an Experimental Post Office attached to Tumkur, and was addressed to "The Library, Mysore Public Works Department, Bangalore."

From the nature of the contents, it appears to me that there has been an abuse of the privilege of sending articles "free" On Mysore Government Service. If this view be concurred in, I beg that the necessary action may be taken in the matter.

(2) *Letter No.* 95—795, *dated 2nd March* 1896, *from the Secretary to the Government of Mysore, Public Works Department, to the First Assistant to the Resident.*

With reference to your letter No. 612, dated 21st ultimo, to the address of the Dewan of Mysore, forwarding copy of letter No. 1223 of 17th January 1896 from the Postmaster, Bangalore, to the Postmaster-General, Madras, and requesting that the circumstances under which the books therein referred to were sent through the Post Office "On Government Service," may be explained, I have the honor to inform you that the books under reference belong to the "Mysore Public Works Library," which is attached to the Chief Engineer's Office. The books and papers of this Library are sent through the Post Office "On Mysore Government Service," under an old arrangement specially sanctioned by Mr. L. Bowring, formerly Chief Commissioner, when the Library was first started in 1863, and subsequently ratified by Sir James Gordon in 1874. This arrangement has been followed ever since, and it was in force at the time the Anche was amalgamated with the Imperial Post in 1889.

2. The enclosure to the Postmaster's letter is herewith returned, as requested.

(3) *Letter No.* 931, *dated 12th March* 1896, *from the First Assistant to the Resident.*

With reference to letter No. 95—795, dated the 2nd instant, from the Secretary to the Government of Mysore, Public Works Department, stating that all books and papers belonging to the "Mysore Public Works Library" are sent through the Post Office "On Mysore Government Service," under an arrangement specially sanctioned by Mr. L. Bowring in 1863, and subsequently ratified by Sir James Gordon in 1874, I am directed to ask you to be so good as to forward a copy of those orders for the information of the Resident.

2. I am at the same time to invite attention to the Durbar's Notification No. 120, dated the 18th August 1890, and to enquire whether the procedure followed in respect of the transmission of the particular books under reference by post "On Mysore Government Service" was not prohibited by that Notification.

(4) *Letter No.* 263—2360, *dated* 26*th May* 1896, *from the Secretary to the Government of Mysore, Public Works Department, to the First Assistant to the Resident.*

In reply to your letter No. 931, dated 12th March 1896, to the address of the Dewan of Mysore, I have the honor to forward copy of Note, dated 23rd December 1873, by Colonel Sankey, R. E., then Public Works Secretary to the Government of Mysore, and of orders passed thereon, dated 24th idem, by Sir James Gordon, then Chief Commissioner, in which he sanctioned the practice of books and papers connected with Public Works Departmental Library being circulated free of postage charge. I regret that the original order passed by Mr. Bowring, Chief Commissioner, when the Library was first started in 1863, from which time the above arrangement has been in force, is not forthcoming from the records of the old Chief Engineer's office.

2. As it was understood that the Imperial Postal Department was to carry on the work which was previously done by the local Anche, the procedure followed since the amalgamation, in respect of the transmission of books and papers belonging to the Public Works Library, cannot be considered to have been prohibited by the Durbar's Notification No. 120 of 19th August 1890, quoted in your letter under reply. Professional papers, though maintained by subscriptions from professional officers, may fairly be considered as appertaining to the public service, and books to afford recreation in their leisure hours to officers and subordinates stationed in remote localities, far away from libraries, may, in a sense, be considered to fall in the same category.

(ENCLOSURES TO THE ABOVE.)

*Letter, dated* 23*rd December* 1873, *from Colonel Sankey, R. E., Chief Engineer, to the Chief Commissioner, for orders.*

The present reference will be observed to have arisen out of a charge for postage being levied on Road Overseer Hanchard for transmission of papers belonging to the Departmental Library.

The Library in question was started by Colonel Lawford when Chief Engineer in 1863 (I think), and as it promised both professional and general reading for our subordinates (who subscribed one rupee and eight annas per mensem, according to pay), Mr. Bowring granted as a boon the interchange of books and papers *gratis* by Anche.

I am at this moment unable to find the official sanction for this boon, but I may say that it has been in force for some ten years, and, as will be observed from the accompanying docket in reply to a similar concession in favor of the Forest Department, Colonel Meade was pleased to sanction it.

I would now, therefore, solicit the favor of the Chief Commissioner's confirmation of the order alluded to.

*Chief Commissioner Sir James Gordon's orders, dated* 24*th December* 1873, *on the above note.*

I am of opinion that the boon is one that may fairly be accorded, and I therefore sanction the practice which Colonel Sankey refers to and supports; of course the usual steps will be taken to prevent any abuse of this indulgence.

(5) *Letter No.* 2107, *dated* 8*th June* 1896, *from the First Assistant to the Resident in Mysore.*

I am directed to invite a reference to the correspondence ending with letter No. 263—2360, dated the 26th ultimo, from the Secretary to the Government of Mysore, Public Works Department, regarding the practice in vogue in the Mysore State under which books and papers belonging to the "Mysore Public Works

Library" are sent through the Post Office "On Mysore Government Service," and to say that, in the Resident's opinion, it is impossible to expect the Imperial Postal Department to continue the privilege accorded in former times by the State Anche in respect of unprofessional and unofficial communications.

2. This view seems to have been taken by the Durbar in publishing its Notification of the 19th August 1890, No. 120, and the Resident thinks it will be desirable for the Durbar to revise the arrangements relating to the transmission of books belonging to the Public Works Department Library accordingly.

3. The argument contained in the last sentence of Colonel Bowen's letter, a copy of which is enclosed for easy reference, is one in which Mr. Mackworth Young is afraid the Imperial Postal Department will find it impossible to concur; he would therefore recommend that some measures be taken to confine the privilege to official and professional works, otherwise there is danger of its being withdrawn altogether.

(6) *Letter No.* 1906, *dated* 25*th May* 1896, *from the same Officer.*

Referring to clause 335 of the India Postal Guide issued in January 1896, the Postmaster-General, Madras, has brought to the Resident's notice that district officials in Mysore correspond with the members of the Boards in the interests of Local Fund schools, roads, &c., under covers franked "On Mysore Government Service." Even correspondence in the interests of the Municipalities, it would appear, is treated as official correspondence.

2. The Postmaster-General has not thought it necessary to enquire very closely as to how far this practice actually prevails, but feels sure, and in this the Resident concurs, that if the matter were brought to the notice of the Durbar, steps would be taken to remove any misapprehension in regard to the proper treatment of this correspondence that may now exist on the part of officials of the State who are connected with District Boards or Municipal institutions.

3. The Resident will be glad to be informed of the action taken by the Durbar in this matter.

(7) *Letter No.* 2618, *dated* 20*th July* 1896, *from the same Officer.*

I am directed to invite attention to my letter No. 1906, dated the 25th May last, regarding the transmission of correspondence on matters connected with Local Fund schools, roads, &c., under covers franked "On Mysore Government Service," and to request the favor of an early reply.

2. I am at the same time to forward a copy of a letter No. O. C. 2 No. 1—10726 of the 10th instant, from the Postmaster-General, Madras, and of its enclosure, and to enquire in what sense the expression "Government school" is used in the latter.

(ENCLOSURES TO THE ABOVE LETTER)

(1) *Letter No. O. C. 2 No.* 1—10726, *dated* 10*th July* 1896, *from the Postmaster General, Madras, to the First Assistant to the Resident in Mysore.*

In continuation of my letter to your address No. 4799, dated 14th May 1896, I have the honor to attach copy of a letter No. 6417—701, dated 10th April 1896, which the Officiating Inspector-General of Education in Mysore addressed to the Superintendent of Post Offices, Shimoga Division, and to request that the Resident will have the goodness to ascertain from the Durbar in what sense the expression "Government school" is used in that communication. It will be observed that the Inspector-General of Education refers to "Government girls' schools," and again, after alluding to "all village schools, whether hobli or taluk branch," finally includes schools of all these classes under the term "Government school."

2. The question for determination is, whether the schools referred to are institutions of the Mysore Government or institutions maintained by local bodies, such as Municipalities or district or taluk Boards. In the former case the school masters would be servants of the Mysore Government, and as such competent to superscribe correspondence relating to the affairs of the school as correspondence "On Mysore Government Service;" while in the latter case they would be servants

of the local bodies by whom the schools are maintained, and correspondence dealing with the management of the schools would be of the nature of private correspondence and should be paid for as such. In cases of the latter kind, the fact that the Mysore Government contributed to the support of the school would of course not affect the view I have just stated.

3. In British territory, schools of the classes now under reference are maintained by local bodies, and the correspondence of the schoolmaster or of the managing committee is not eligible for transmission by Post as correspondence "On Her Majesty's Service," nor can the local body itself superscribe its correspondence in that way.

(2) *Copy of a communication No.* 6417—701, *dated* 10*th April* 1896, *from the Officiating Inspector-General of Education in Mysore, to the Superintendent of Post Offices, Shimoga Division.*

I have the honor to forward herewith the enclosed letter No. 339, dated the 23rd January 1896, from the Postmaster at Nagar, to Ch. Nagappa, Secretary of the Nagar Government Girls School, for perusal and return, and to state that all Government girls schools and all village schools, whether hobli or taluk branch, are placed under the management of committees, and the secretary or the correspondent member of a school writes to the Educational authorities on all matters relating to his school, and as he does so in the interest of a Government school, he is allowed to frank letters written in his official capacity. I have the honor, therefore, to request you will be good enough to instruct the Postmasters in your division not to charge postage on letters franked by secretaries or correspondents of Government schools.

(8) *Letter No.* 2099—*P.*36, *dated* 10*th August* 1896, *from the Secretary to Government, Revenue and General Departments, to the First Assistant to the Resident in Mysore.*

I am directed to acknowledge the receipt of your letters Nos. 1906, 2107 and 2618, dated 25th May, 8th June and 20th July 1896, respectively, *re* the transmission "On Mysore Government Service" of Public Works Department Library books and papers, and Local Fund, Municipal and Educational correspondence, and in reply to submit the following observations for the favorable consideration of the Resident, and for communication to the Postmaster-General of Madras, with his support.

2. The Public Works Department Library is a much valued institution which has been in existence for a long series of years. It was started during the British Administration as a means of instruction to the local Public Works Department, and from the commencement its books and papers have been carried free of postage. It was during the enjoyment of this privilege by the Library that the transfer of the Anche to the Imperial Postal Department was effected.

3. The Local Fund and Municipal Departments in Mysore are, to all intents and purposes, State departments, and their funds are administered by the heads of districts, aided by committees composed partly of official and partly of non-official members. All correspondence relating thereto has always been regarded as official and carried free of cost.

4. A portion of the local funds is spent upon such Educational institutions as taluk branch schools and hobli schools (both for boys and girls), which are under the control of the State Education Department, and for the efficient management of which, local committees have been appointed in some places. Many other schools, such as girls' schools in taluk and district headquarters, though maintained from Provincial funds, have also been placed under the management of local committees working under the orders of the State Education Department. The teachers employed in all these schools, whether maintained from Provincial funds or from Local funds, are Government servants whose appointment and removal rest with the head of the Education Department and not with local bodies. All correspondence in connection with these schools between the committee of management, the teaching staff,

and the higher officers of the Education Department, has always been treated as official correspondence of the State and carried free of postage.

5. I am to refer here to the negotiations which resulted in the transfer of the Mysore Anche to the Imperial Postal Department. The quantity of matter which was being carried as official correspondence by the Mysore Anche, and which, subsequent to the transfer, would have to be carried free of charge by the Imperial Postal Department, formed an important factor in the consideration of the *pros* and *cons* of the transfer. As called for in the Director-General's letter No. 3489, dated 11th June 1885, received with the Assistant Resident's letter No. 1409-279, dated 29th August 1885, the Durbar forwarded a carefully prepared statement showing particulars of the official correspondence carried by the Anche in the years 1883-84 and 1884-85. In that statement were included all letters, parcels and packets carried free as official matter, including the several items to which objection has now been taken. Para 2 of the Assistant Resident's letter No. 25, dated 24th November 1887, and the Dewan's reply No. 24, dated 28th November 1887, show that one of the terms of the transfer was an undertaking by the British Postal Department "to carry for nothing within the limits of Mysore the whole official correspondence of the State." The Durbar hope that the Resident and the Postmaster-General will agree with them in thinking that by "official correspondence" was then meant the whole of the letters, parcels and packets which at the date of the transfer were being regarded as official and carried free as shown in the statement above adverted to. In accepting the proposal for the transfer of the Post to the British Government, the Durbar fully believed that no change would at any time afterwards be made in this respect.

6. Under these circumstances, I am to request the favor of your moving the Resident to forward this statement of facts to the Postmaster-General, Madras, with a recommendation for the continuance of the practice on the basis of which the Postal transfer was effected.

(9) *Letter No.* 3120, *dated* 31*st August* 1896, *from the First Assistant to the Resident in Mysore.*

I am directed to reply to your letter No. 2099—P. 36, dated the 10th instant, on the subject of transmission "On Mysore Government Service" of Public Works Department Library books and papers, and Local Fund, Municipal and Educational correspondence, and to say the Resident concurs in the principles enunciated, and is prepared to support the views of the Durbar in regard to official and professional books, and proceedings of Boards, and correspondence connected with schools, but he thinks the case will be stronger if the Durbar accepts the limitation as regards novels and works of purely recreative character; he regrets he is unable to support the proposal for the continuance of the transmission of such works.

2. Before addressing the Postmaster-General, Mr. Mackworth Young thinks it advisable to ask if the Durbar will not reconsider this point.

(10) *Letter No.* 4727—*P.* 77, *dated* 10*th October* 1896, *from the Secretary to Government, Revenue and General Departments, to the First Asssatnt to the Resident in Mysore.*

I am directed to acknowledge the receipt of your letter No. 3120, dated 31st August last, and in reply to state that the Durbar are thankful to the Resident for his willingness to support their views in regard to official and professional books, and proceedings of Boards, and correspondence connected with schools.

The Durbar are willing to accept the limitation suggested by him as regards novels and works of purely recreative character; and I am to request that a reference may be kindly made to the Postmaster-General, Madras, with a view to an early settlement being arrived at.

(11 *Letter No.* 952, *dated* 8*th March* 1897, *from the First Assistant to the Resident in Mysore.*

With reference to the correspondence ending with your letter No. 4727—P. 77, dated the 10th October 1896, I am directed to state that, with the

sanction of the Director-General of the Post Office of India, the Postmaster-General, Madras, has accepted the proposal that, with the limitation to which the Durbar have agreed in the letter quoted above, all books of an official and professional nature, exchanged between the Library of the Mysore Public Works Department and its subscribers, should be allowed to be transmitted "On Mysore Government Service" free of charge. The limitation applies to novels and other books of purely recreative character.

2. As regards the question relating to the transmission "On Mysore Government Service" of the correspondence of Municipal and Local Fund institutions, it may be observed that all correspondence, which was understood and treated by that Government as official at the time of the amalgamation of Posts, will continue to be carried free of charge, so long as paras 3 and 4 of your office letter No. 2099—P 36, of the 10th August 1896, correctly describe the funds and institutions which claim to have their correspondence carried free.

3. The Postmaster-General has, at the same time, pointed out that if a Government school or other Government institution becomes hereafter a private school or private institution, its correspondence will not be carried free, though it was treated as official at the time of amalgamation of Posts. If hereafter the servants of schools and other institutions now treated as Government servants cease to be so treated, or, if any of the local funds and municipal institutions are freed from the administration or control of heads of districts and heads of State departments, the position will be changed, that is to say, the correspondence connected with these institutions will cease to be Government correspondence, and will be treated in the same way as correspondence connected with similar institutions in British territory or private. The Resident presumes that the Durbar will accept this view.

4. The favor of a reply at your early convenience is requested.

(12) *Letter No. Camp* 409—*P.* 228, *dated* 14*th March* 1897, *from the Secretary to Government, Revenue and General Departments, to the First Assistant to the Resident in Mysore.*

I am directed to acknowledge the receipt of your letter No. 952, dated 8th March 1897, *in re* the transmission free of postage of certain D. P. W. Library books, and Local Fund and Municipal correspondence, &c., and in reply to state that the Durbar are agreeable to the views therein expressed, and would be glad if instructions could be issued at an early date on the lines therein indicated.

(13) *Letter No.* 1437, *dated* 1*st April* 1897, *from the First Assistant to the Resident in Mysore.*

In reply to your letter No. (Camp) 409—P. 228, dated the 14th ultimo, regarding the transmission free of postage of certain D. P. W. Library books and Local Fund and Municipal correspondence, &c., I am directed to state that the Postmaster-General, Madras, has issued the necessary instructions on the subject to all Postal officers in the Mysore State.

(3) from the President of the Tumkur District Fund Board, stating that, in his own opinion, as the District and Municipal Funds contribute two-thirds of the cost of local medical relief in ordinary times, the entire cost of the arrangements needed to prevent the spread of cholera and epidemic diseases on special occasions should be borne by the Provincial revenue, and reporting that the District Fund Board are of opinion that on the outbreak of an epidemic, a reasonable share of the cost of sheds, bedding and clothing and feeding the patients may be debited to the District Funds or the municipality concerned.

It is, however, necessary that the distinction between Municipal towns and rural areas should be kept in view. Government accordingly direct that extras in the way of nourishment, medicines, stimulants, disinfectants and batta for medical subordinates be charged to the Medical budget, but that as regards the other charges referred to by the Senior Surgeon, (namely, accommodation, bedding, clothing, feeding, special attendants, telegraphic charges, &c.), a third part of the cost be alone debited to Municipal Funds in municipal areas, the remainder in this case and the entire cost in the case of other places being debited to District Funds.

Has the honor to forward copy of Sagar Sub-Division Officer's letter No. 279, dated the 23rd February 1898, regarding a shock of earthquake—

(Enclosure to the above.)

I have the honor to report that as I was seated in the verandah of the travellers' bungalo at Sorab at about 5-20 P. M. yesterday, I heard a loud and distant report, resembling the discharge of a cannon, followed by a rumbling noise which lasted for nearly two minutes. I noticed nothing more. The local Hospital Assistant who was in the town, some pleaders who were in the Munsiff's Court at Sagar, which is 18 miles to the south of Sorab, and my officials who were travelling at a point some 6 miles to the north of the same place, relate the same experience about the same time. It must have been due to a passing shock of earthquake and the noise seemed to proceed from the south-west to the north-east, though opinions differ on this latter point.

Letter No. 48, dated 25th December 1897, from the District Magistrate of Kolar, to the Secretary to the Government of Mysore, General and Revenue Departments—

In forwarding herewith copy of judgment in Criminal Appeal No. 31 of 1897-98, together with a copy of the letter addressed to the Registrar of the Chief Court, No. 2101—1264, dated 23rd instant, I have the honor to report that the surrender of the accused by the Sub-Magistrate, Kuppam, and his trial by the Amildar Magistrate of Bowringpet taluk are illegal and opposed to the provisions of the Criminal Procedure Code and the Extradition Act. I have submitted the records to the Chief Court for the conviction and sentence of the lower court and the subsequent confirmation in appeal being set aside in revision and shall report the result for such further action as the Government may deem proper.

*Enclosure.*

Letter No. 2101—1264, dated 23rd December 1897, from the District Magistrate of Kolar, to the Registrar of the Chief Court of Mysore—

With reference to para 3 of my judgment in Criminal Appeal No. 31 of 1897-98, forwarded with docket No. 255, dated the 22nd instant, I have the honor to submit explanation of the Amildar Magistrate received this day, together with the criminal records connected therewith.

2. It will be seen from these papers that the accused is a native Indian subject of Her Majesty and was living at Desahalli in the Bowringpet taluk as a cooly. He was arrested by British Police in British Territory and placed before the Sub-Magistrate of Kuppam for trial. The Sub-Magistrate finding that the offence had been committed in Mysore province, ordered him to be placed before the Bowringpet Taluk Magistrate, who tried and convicted him. In the first place the accused being a British subject, he might have been tried by the British Magistracy under Section 188 of the Criminal Procedure Code. Failing that, he should have been remanded to the lock-up by the Magistrate pending institution of formal proceedings for his extradition. The surrender and the subsequent trial before the Amildar Magistrate of Bowringpet are therefore clearly illegal, and the conviction by him and the confirmation of the appeal by me are void.

3. I beg therefore that the Chief Court will be pleased to take necessary action on the revision side. A copy of this letter will also be submitted to Government for their information.

"As the offence was committed within the jurisdiction of the Bowringpet Taluk Magistrate, it "cannot be said that the Magistrate had not jurisdiction to try the offence.

"Whatever illegality the Kuppam Magistrate and Police may have been guilty of in placing the "accused before the Bowringpet Magistrate, the latter cannot be said to have exceeded his jurisdiction "in trying the case when the accused was placed before him. Moreover, the accused does not appear "to have objected to the Bowringpet Magistrate's jurisdiction to try the case.

"Section 188 of the Code of Criminal Procedure in force in Mysore is not applicable to the case as "it has reference to offences committed by "Subjects of His Highness the Raja of Mysore" in any "place "beyond the Territories of Mysore."

"It is unnecessary for us to consider what the Kuppam Magistrate should have done under the "corresponding section of the Code of Criminal Procedure in force in British India.

*Excluding the imprest of Rs. 2,700 with the Amildars.

3. Out of the total demand of Rs. 1,48,830, a sum of Rs. 1,42,774 was collected, leaving an outstanding balance of Rs. 6,056 at the end of the year. It is hoped that no efforts will be spared for the early adjustment of this balance.

4. The budget grant for the expenditure of the year amounted to Rs. 93,068, but of this only Rs. 70,410 was utilized, and the rest, *viz.* Rs. 22,658, lapsed. The lapses were contributed to in manner following:—

| Items. | Budget Grant. | Expenditure. | Lapses. |
|---|---|---|---|
| | Rs. | Rs. | Rs. |
| A. Public Works to be executed by Public Works Department. | 61,893 | 50,498 | 11,305 |
| B. Ditto by Revenue Department ... | 16,206 | 8,659 | 7,549 |
| C. Civil Charges ... | 15,057 | 11,253 | 3,804 |
| Total ... | 93,068 | 70,410 | 22,658 |

The lapses under the first of these heads are reported to be due to non-receipt of bills, late commencement of work, and late receipt of the revised District Fund Budget, sanctioned. As regards the last circumstance, it is observed that the revised budget was only received in this office in December 1896, and that the Deputy Commissioner ought not to have delayed its submission for six months. The lapses under the second head, which amount to nearly one-half of the sanctioned grant, should have been explained. In this connection, Government cannot lay too great a stress upon the desirability of utilizing to the full extent the budget grants sanctioned for necessary works. This remark applies equally to the grants from Local Funds General, which during the year under review amounted to Rs. 28,060, but of which less than one-third (Rs. 9,108) was expended. It is hoped that the scheme lately sanctioned for securing adequate supervision by the appointment of Work Inspectors will obviate this state of things to a considerable extent.

5. The cost of establishment for works executed by Revenue agency amounted to Rs. 3,438, or nearly 40 per cent of the total expenditure, much too high a proportion, considering that the cost of establishment for works undertaken by the Public Works Department was only 17½ per cent. This point had also been noticed in the Order of Government on the previous year's administration report. The President is requested to submit a detailed explanation, with particulars of the items making up the cost.

6. The midwives in the district attended to an increased number of cases during the year (455 against 325), and it is reported that their services are being more and more utilized.

7. There was a slight increase in the number of deaths (6,864 against 6,157), chiefly owing to the prevelance of small-pox; and a noticeable rise in the number of births from (9,065 to 10,022).

8. The other particulars in the report do not call for special mention.

2. (*A*) *Public Works to be executed by Public Works Department.*—The sum of Rs. 9,481 provided under the head "V Reserve" will be distributed among the heads "I Original Works," "II Repairs," and "III Establishments," at Rs. 3,981, 4,088 and 1,412 respectively, and the estimates under these heads raised accordingly.

3. (*B*) *Public Works to be executed by Revenue Department.—II. Repairs.*—In the consolidated budget the estimate under "Repairs" is entered as Rs. 3,460, whereas the correct total of works given in the statement of details falls short of this amount by Rs. 1,000, due to the omission of provision for the Kaulandi musafirkhana. It should be explained whether no provision is needed for the musafirkhana at Kaulandi. Pending information the sum of Rs. 3,460 will be retained in the budget.

4. *III. Establishment.*—The provision under this head will be raised from Rs. 1,800 to Rs. 2,437, which represents the correct amount of 10 per cent on the enhanced provision made for original works and repairs.

5. *Civil Charges—VII Vaccination.*—An increase of Rs. 8 is proposed for the pay of the peon attached to the Deputy Inspector of Vaccination. The President should state the present and proposed salary of the peon and the proportions

in which the same is debited to the Mysore and French Rocks circles and quote the authority sanctioning the increased rate of pay. Pending information the provision will be retained.

6. Government regret to observe that there are several mistakes of calculation in the budget estimates now submitted as detailed in the margin. Every endeavour should be made to avoid similar mistakes in future.

Letter No. 733, dated 27th January 1898, from the President of the District Fund Board, Tumkur, soliciting instructions as to whether a certificate under the order of 1st May 1894, No. 18400-408—L. F. 346-92, is necessary even in the case of a peon or other menial servant who may accompany an Amildar to the District Head-quarters on the occasion of his attending District Fund meetings and recommending that such an Amildar may be allowed to draw travelling allowance for his peon without any certificate from the Deputy Commissioner.

No. 10718-19—L. F. 346-92, DATED BANGALORE, 3RD MARCH 1898.

ORDER THEREON.—Government observe that the reference which led to the passing of the order of 1st May 1894 related pointedly to a peon and that under existing orders therefore a certificate as regards peons is necessary.

2. In modification, however, of the Proceedings No. 18400-408—L. F 346-92, dated 1st May 1894, and with reference to Proceedings No. 2003-13—L. F. 346-92, dated 3rd August 1893, it is hereby ruled that, in future, Amildars travelling on duty connected with attendance at Local Fund meetings will be allowed to take one peon with them and charge batta and allowance for him under the rules. When taluk officials have to accompany Amildars when attending Local Fund meetings, allowance for such officials can only be passed on production of a certificate from the Deputy Commissioner.

No. 11764-75—L. F. 86-97, DATED BANGALORE, 19TH MARCH 1898.

ORDER.—The following Draft Rules proposed to be issued under Section 3 of the Mysore Village Sanitation Regulation I of 1898, will be forwarded for opinion and suggestions, if any, to the Senior Surgeon and Sanitary Commissioner, the Officer in administrative charge of Plague Prevention Measures, and the Deputy Commissioners of Districts and Presidents of Municipal and District Boards.

2. It is the object of these Rules to set out the main principles of sanitation in as simple and intelligible a manner as possible, and to avoid laying down restrictions and injunctions which cannot be enforced without difficulty and needless offence.

3. The question of agency presents some difficulty. But there seems little doubt that the general administration of sanitary regulations should be entrusted, according to the nature of the area concerned, to Municipal or District Boards, subject to the general control of the Deputy Commissioner. In Municipalities, a distinct agency for the enforcement of Rules would generally be available, but in rural areas, the Patels of Government villages and the owners of alienated villages, assisted by Shanbhogs and leading inhabitants of each village would be the readiest instruments to hand, till such time as it might be possible to appoint village committees to look after the work.

4. In what manner the funds at the disposal of District Boards may be permanently increased, so as to enable them to attend more efficiently to rural sanitation, is another question which has been engaging the attention of Government. But for the present, the efforts of Boards will no doubt be limited by the extent of their means, supplemented to some extent by the fines for breaches of sanitary rules, which will be credited to them. In the case of wells and other works of improvement required for the common benefit of a village, the inhabitants may be induced to contribute towards the cost.

5. As the early issue of these Rules is desirable, all replies should be submitted if possible by the 10th April.

By Order,

C. SREENIVASIENGAR, *Secy. to Govt., Gen. & Rev. Depts.*

To—The Senior Surgeon and Sanitary Commissioner.
The Officer in administrative charge of Plague Prevention Measures.
The Deputy Commissioners of Districts.
The Presidents of Municipal and District Boards.

## NOTIFICATION.

In exercise of the power conferred by Section 3 of "The Mysore Village Sanitation Regulation, 1898," the Government of Mysore are pleased to prescribe the following Rules to regulate the conservancy, improve the sanitation, and provide for protection of the water-supply, of villages not being municipalities governed by Regulation—

### I. Agency for the Administration and Execution of Rules.

1. (*a*) The administration of the Rules is hereby entrusted, in a municipal area not governed by Regulation, to the Municipal Board for that area, and in the rest of a District, to the District Local Fund Board, subject in either case to the general control of the Deputy Commissioner.

(*b*) Every Member of a Municipal or District Board, every Revenue Officer of or above the grade of Deputy Amildar, the District Police Officer, the Medical Officer of the District, and any other officer empowered by the Board or by the Deputy Commissioner, shall be entitled to inspect and to report upon the sanitary condition of villages.

(*c*) Such agency as may be appointed for the purpose, or, in the absence of such agency, the Patel of the village, and, in the case of an alienated village, the holder thereof, shall be primarily responsible, under the order of the Municipal or District Board, for the due observance of the Rules.

2. The Municipal or District Board, as the case may be, may, with the approval of the Government, and from the funds at its disposal, appoint such establishments of sweepers, scavengers, watchers and other servants, as may be necessary for efficiently carrying out the purposes of these Rules.

### II. Conservancy of Villages.

3. (*a*) Whenever land is required for the formation of a new village, it shall be selected on a high dry ground, but not near paddy fields, where people are liable to get fever.

(*b*) The streets shall at least be ten yards broad so as to admit of the free circulation of air.

4. Subject to the approval of the Municipal or District Board, as the case may be, boundary marks, which may be pillars of mud or brick, shall be set up around every village site for the purposes of these Rules, but not so as to be nearer than 100 yards of the same on every side.

5. No new house shall be allowed to be built in any village within twenty feet of the front or back, or six feet of the side, of any existing house.

6. The floors of all dwelling houses shall be raised above the ground level

7. All uninhabited buildings which are in a dilapidated and dangerous condition shall be dismantled, and the walls razed to the level of the ground.

8. (*a*) No person shall make excavations for any purpose from the ground in the immediate vicinity of houses, or anywhere within the boundary marks of a village.

(*b*) All existing excavations shall be either filled in or drained.

(*c*) A definite area shall be set apart outside the boundary marks, and at a convenient distance from the village, from which all earth required should be excavated.

9. The hedge, if any, surrounding the village shall be kept properly trimmed, and means taken to prevent its being made a cover for the commission of nuisances.

10. The lower branches of all large trees shall be cut to a height of six feet from the ground, so that there may be a free circulation of air below.

11. No street or lane and no house, building or land within the boundary marks shall be permitted to be in a filthy or insanitary state or overgrown with weeds or noxious vegetation.

12. Cess pits and privy wells shall not be dug, or allowed to be kept up, or used, nor filth deposited, within the compounds of houses or in front of the village, or anywhere within the boundary marks, or near a well or other source of drinking water.

13. (*a*) All filth, rubbish and other impure matter collected within the boundary marks shall be removed either to a field or to a place set apart for the same, and situated at a safe and sufficient distance outside the boundary marks of the village and to leeward thereof.

(*b*) All such filth, &c., shall either be burnt or be worked into the land at ploughing time.

14. Cow-dung cakes shall, as far as possible, be manufactured outside the village boundary marks, and shall in no case be spread over the floor or affixed to the walls of dwelling houses.

15. Cattle shall not be kept inside of dwelling houses, or within small house compounds.

16. No offensive trades, such as tanneries, potteries, tile-burning, lime-burning and the like shall be permitted without a license from the Taluk Amildar. The same shall be carried on outside the boundary marks of the village and at a safe and sufficient distance therefrom.

17. No person shall ease himself or herself in or about a street or thoroughfare or anywhere within the boundary marks of the village, except in a spot that may be set apart for the purposes of nature; nor on the banks or in the beds of springs, streams, or tanks.

## III. Water-supply.

18. (*a*) For every village there shall be set apart solely for drinking purposes one or more wells, or if the water-supply is from tanks, one such tank, and, if possible, a separate water-supply for low-caste people.

(*b*) The ground within ten yards of such well or tank shall be kept free from filth, rubbish or other impure matter, and sloped away so as to prevent filth, etc., from being washed into the well or tank.

(*c*) All new wells shall be cased outside with clay or cement or with concrete to a sufficient depth, say eight or ten feet from the ground level, to cut off the surface and subsoil water from the well; and all wells within the village or near a road or path shall be fenced round with parapet walls of stone or mud at least two feet high.

(*d*) If the drinking water is obtained from a flowing river, efficient measures shall be taken to preserve the cleanliness of the banks as well as the beds of nallas, streams or water-courses which discharge into it, and to prevent their contamination.

19. In the event of any source of drinking water being found to yield impure water, immediate measures shall be taken to improve the same, pending which the further use of such source shall be forbidden.

20. No person shall bathe or shall wash his clothes or cattle in any well, tank or reservoir used for drinking purposes, or render the water thereof impure in any other manner.

## IV. Food-supply.

21. No one shall feed milch-kine or slaughter-cattle or permit them to be fed on stable litter and other refuse.

22. No person shall sell or expose for sale tainted meat or fish or unwholesome fruits or vegetables.

23. No persons afflicted with a loathsome or infectious disease shall sell or expose for sale any articles of food.

## V. Disposal of Dead Bodies.

24. (*a*) A burial ground shall be set apart for each village outside the boundary marks and at a reasonable distance therefrom, not less than 400 yards.

(*b*) No person shall bury or burn dead bodies or cause the same to be buried or burnt outside the ground so set apart, or by the side of any stream or reservoir the water of which is used for drinking purpose, or in the beds or on the bunds of tanks or of rivers or in nallas which form water-courses after rain falls.

25. When a dead body is buried, the grave shall be of sufficient depth to allow a full space of six feet between the body and the level of the ground, and shall not be excavated at less than two feet apart from any other existing grave.

26. When a corpse is disposed of by burning, no part of the body shall be left unconsumed; and when the death is due to cholera, small-pox or other infectious disease, care shall be taken that every part of the deceased's clothes is also burnt or buried.

27. The bodies of all dead cattle shall be buried at once under not less than six feet of earth in the spot if any set apart for the purpose, or if no spot has been so set apart, in some place removed from the beds of streams, tanks or other sources of water-supply, and distant at least 400 yards from the village.

## VI. Epidemic Diseases.

28. In the event of an outbreak of cholera in a villages—

prompt steps shall be taken to cleanse it by removing all filth that may have accumulated in the backyards of houses as well as in the streets;

the person attacked shall, if possible, be moved away to a shed or open place outside the village boundary marks;

all matter discharged by the person attacked shall at once be removed and burnt, disinfected or buried;

the dwelling house of the person attacked shall be thoroughly disinfected and whitewashed, and the clothes and bedding used by him either buried or burnt or disinfected by boiling with sulphate of iron or other disinfectant;

fresh earth shall be strewed around the dwelling, more particularly where any discharges from the infected person are likely to have been thrown;

the hut in which the case occurred shall either be destroyed, especially if it is one of mud and has a thatched roof, or at least before the house is again inhabited it shall be thoroughly cleansed and whitewashed and not allowed to be occupied for at least fifteen days;

should the disease spread, the inhabitants shall be advised to disperse for a time and not to return till the epidemic has ceased;

and, so far as is possible, no effort shall be spared to remove the exciting causes, arising mainly from impurities in the soil or water of the locality, which an outbreak invariably denotes.

29. When small-pox is prevalent, similar precautions shall be taken, and the inhabitants advised to submit themselves to vaccination as the most effective safeguard against the disease.

30. When cattle disease breaks out, the owners of cattle shall keep their sick cattle segregated and far removed from the village.

## VII. Penalties, and Disposal of Fines.

31. (*a*) Whoever is guilty of a breach of the provisions of any of the foregoing Rules, shall, on conviction before a Magistrate, be punished with a fine which may extend to ten rupees, and, when the breach is a continuing breach, with a further fine which may extend to five rupees for every day after the first during which the breach continues.

(*b*) All fines shall be recovered in manner prescribed in the Code or Criminal Procedure; and shall, when recovered, be credited to the Municipal of the District Board, according to the nature of the area within which the breach occurred, and may be applied, under orders of the Municipal or the District Board, as the case may be, towards any of the purposes of these Rules.

Letter No. 1044, dated 8th February 1898, from the President of the District Fund Board, Bangalore Circle, submitting the budget estimates under "District Funds" for 1898-99, together with an extract from the proceedings of the District Fund Board meeting held on 24th January 1898.

No. 11687-92—L. F. 101-97, DATED BANGALORE, 18TH MARCH 1898.

ORDER THEREON.—The receipts of the Bangalore Local Fund Circle for 1898-99 are estimated at Rs. 71,152 against Rs. 71,021 the actuals of 1896-97 and Rs. 71,765 the sanctioned estimate for 1897-98.

RECEIPTS.

2. *Seventy-six per cent of Local Cess.*—The increase of Rs. 2,448 under this head over the actuals of 1896-97 has not been explained. A reference to the Enclosure A shows that the total current demand to be credited to the District Fund is Rs. 65,981, the arrears at the commencement of the year being *nil*. But it is not clear how the proposed estimate is entered at Rs. 141 in excess of the total demand. Pending explanation, which the President is requested to submit, the estimate will stand.

3. *Opening balance.*—It should be explained how the estimate under this head has been arrived at. Pending information, the closing balance of Rs. 21,667 according to the supplemental budget for 1897-98, sanctioned in Proceedings No. 10033-6—L. F. 253-96, dated 21st February 1898, will be adopted as the opening balance for 1898-99.

EXPENDITURE.

4. *A. Public Works to be executed by D. P. W.*—The proposed increase of the mileage allotment of the Iglur-Anekal-Gummalpur road from Rs. 50 to Rs. 60 chiefly accounts for the increase under the head "II. Repairs." The estimate is passed.

5. Seventeen and a half per cent on the estimate for original works and repairs is Rs. 6,902 and not Rs. 6,815. The former figure will be adopted in the budget.

6. *B. Public Works to be executed by Revenue Department.*—In addition to the lump sum provision made under this head, a sum of Rs. 1,000 is entered under the head of "Civil Charges" on account of a "Moiety of the cost of establishment of Work Inspectors." As the salaries of Work Inspectors has to be provided under the sub-head "III. Establishments" at ten per cent of the provisions for works, the aforesaid amount will be transferred to this head but will be reduced to Rs. 907, which represents one-tenth of the estimate for works. The estimate under this head will thus be raised to Rs. 9,983, subject to the submission of the promised lists of works.

CIVIL CHARGES.

7. *I. Office Establishments.*—The increased provision under this head will be retained pending the issue of final orders on the contemplated revision of the Local Fund branch of the District office, but the new estimate for Work Inspectors will be struck out.

8. *Medical Scholarships.*—Including the sum of Rs. 20 erroneously entered under "IV. Midwives" on account of a scholarship to a student undergoing training for the grade of Hospital Assistants, the provision under this head comes to Rs. 620, which will be reduced to Rs. 607 as per particulars given hereunder—

| | | Rs. |
|---|---|---|
| 10 Pre-collegeate students at Rs. 9 each per mensem | ... ... | 1,080 |
| 10 1st year students at Rs. 10 ditto | ... ... | 1,200 |

| | Total .. | 4,850 |
| Cost debitable to each district ... ... | ... ... | 606¼ or Rs. 607 nearly. |

9. *IV. Midwives.*—For reasons given in the foregoing para, the provision under this head will be reduced from Rs. 1,370 to Rs. 1,350.

10. *V. Sweepers for 3rd Class Travellers' Bungalos and Musafirkhanas.*—The correct total of the details given in the Enclosure D is Rs. 1,482 and not Rs. 1,402 as erroneously entered therein and in the consolidated budget. The necessary corrections will be made and the estimate raised to the former figure.

11. *Miscellaneous.*—The correct total of charges under this head is Rs. 3,100 and not Rs. 2,600 as entered in the detailed statement of Civil charges.

12. The other items call for no remarks and are passed.

The budget estimates of the Bangalore Local Fund Circle for 1898-99 will be sanctioned as shown in the accompanying appendices of which an abstract is given hereunder—

READ—

Docket No. 553, dated 9th February 1898, from the President of the Kadur District Fund Board, submitting the District Fund Budget Estimates of the Kadur Local Fund Circle for 1898-99.

---

No. 11700-4—L. F. 108-97, DATED BANGALORE, 18TH MARCH 1898.

ORDER THEREON.—The receipts for the year are estimated at Rs. 53,100 against Rs. 51,436, the actuals of 1896-97, and Rs. 57,529, the sanctioned estimate for 1897-98.

2. *76 per cent of Local Cess.*—The decrease under this head, compared with the sanctioned estimate for 1897-98, is chiefly due to the revision of assessment on areca-nut gardens in the Koppa taluk and to the small revenue expected from sayer.

3. *Expenditure. A. Public Works to be executed by Public Works Department—I. Original works.*—The provision under this head includes Rs. 4,000 on account of contribution payable from District Fund towards the construction and repair of Local Fund dispensaries in this district. This item will be transferred to the proper head "Civil Charges IX Contribution" and the estimate under this head reduced to Rs. 4,000.

| Roads. | | Increased allotments. Rs. |
|---|---|---|
| 1 Birur-Lingadahalli | ... | 200 |
| 2 Bababudan Hill road | ... | 200 |
| 3 Belur-Mudgere | ... | 80 |
| 4 Belur-Magandi | ... | 110 |
| 5 Sollebile-Balehole | ... | 360 |
| Total | ... | 950 |

4. *II. Repairs.*—The increased allotments made for the marginally noted roads in accordance with the resolution of the District Fund Board, dated 4th February 1898, will be struck out from want of funds. The Board may renew their application if funds could be made available for this by reduction of expenditure under other sanctioned items.

5. *III. Establishments.*—The provision under this head will be reduced from Rs. 5,500 to Rs. 5,434 with reference to the reduced provision under works.

6. *Civil Charges—I. Establishment.*—The increase under this head is due to the provision made on account of the salaries of increased establishments proposed for the Local Fund Branch of the District office. The provision will be retained pending final orders on the revision of establishments now under the consideration of Government.

7. *II. Medical Scholarships.*—As per particulars given in the margin, the correct provision to be made under this head is Rs. 607, which will be adopted in the present budget in lieu of Rs. 499 proposed by the President.

The following communications from the Deputy Commissioners and Presidents of Municipalities in the several districts of the province, regarding mulberry cultivation within Municipal limits.—

1. Letter No. 507, dated 22nd October 1897, from the President of the Municipalities in the Bangalore district.
2. Letter No. 831—222, dated 8th September 1897, from the President of the Municipalities in the Kolar district.
3. Letter Nos. 493 and 617, dated 18th November and 30th December 1897, from the President of the Municipalities in the Tumkur district.
4. Letter No. 336, dated 13th September 1897, from the Deputy Commissioner, Mysore.
5. Letter No. 480, dated 8th November 1897, do Hassan.
6. Letter No. 201—13, dated 11th August 1897, do Shimoga.
7. Letter Nos. 126 and 201, dated 6th August and 2nd September 1897, from the Deputy Commissioner, Kadur.
8. Letter Nos. 157—149, dated 16th August 1897, and 648—610, dated 6th January 1898, from the Deputy Commissioner, Chitaldrug.

No. 10727-34—L. F. 266-96, DATED BANGALORE, 3RD MARCH 1898.

ORDER THEREON.—The cultivation of mulberry within Municipal limits is objectionable. Where, however, such cultivation is carried on in agricultural land assessed to land revenue, the summary interdiction of such cultivation does not seem feasible. The reports received from the Presidents show that such instances are not many and the cost of their acquisition is not likely to be much. The Government are therefore pleased to authorize the Presidents to acquire those lands from Municipal Funds, if the occupants thereof are not willing to discontinue mulberry cultivation and to take to the raising of some other and less objectionable crop thereon. The growing of mulberry on non-agricultural land can be prevented, such use being tantamount to an appropriation for other than authorized purposes.

Letter No. 139, dated 25th January 1898, from the President of the Bangalore City Municipality.

Adverting to para 3 of Government Proceedings No. 1763—L.F. 27-97, dated 2nd August 1897, and to your docket No. 2142—L. F. 27-97, dated 9th idem, I have the honor to state that on receipt of Government Order, I placed myself in communication with the Senior Surgeon and Sanitary Commissioner and requested him to favor the Board with his suggestions as to the detailed arrangements to be carried out for the purposes of daily conservancy and removal and disposal of night-soil. After several reminders, that Officer wrote to me from camp that he would arrange to meet me and discuss over the matter personally on his return to head-quarters. This he has not done and I think sometime may elapse before he can attend to this as he is just now engaged in adopting precautionary measures *re* plague. Meanwhile it having been found by experience that the rates of scavenging cess sanctioned in Government Proceedings under reply were pressing heavily upon rate-payers, the Board considered it desirable to revise the rates. I beg to submit for approval of Government the following scale of revised rates which has been adopted since the beginning of the current month and to enclose copy of Resolution on additional proposition dated 19th December 1897:—

| | Rs. | a. | p. | | Rs. | a. | p. | | Rs. | a. | p. | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| On houses paying an assessment of above | 1 | 0 | 0 | to | 1 | 8 | 0 | per annum | 0 | 1 | 0 | per month. |
| Ditto | 1 | 8 | 0 | to | 2 | 8 | 0 | ditto | 0 | 1 | 6 | ditto |
| Ditto | 2 | 8 | 0 | to | 4 | 0 | 0 | ditto | 0 | 2 | 0 | ditto |
| Ditto | 4 | 0 | 0 | to | 6 | 0 | 0 | ditto | 0 | 3 | 0 | ditto |
| Ditto | 6 | 0 | 0 | to | 10 | 0 | 0 | ditto | 0 | 4 | 0 | ditto |
| Ditto | 10 | 0 | 0 | to | 12 | 0 | 0 | ditto | 0 | 6 | 0 | ditto |
| Ditto | 12 | 0 | 0 | to | 15 | 0 | 0 | ditto | 0 | 8 | 0 | ditto |
| Ditto | 15 | 0 | 0 | to | 30 | 0 | 0 | ditto | 1 | 0 | 0 | ditto |
| Ditto | 30 | 0 | 0 | to | 75 | 0 | 0 | ditto | 1 | 8 | 0 | ditto |
| All above | | | | | 75 | 0 | 0 | ditto | 2 | 0 | 0 | ditto |

I also beg to solicit sanction of Government for the entertainment of the following establishment, with effect from 1st January 1898, which was found necessary by the Commissioners for collection of cess:—

| | Rs. |
|---|---|
| 1 Clerk on | 10 |
| 2 Collection peons at Rs. 6 each | 12 |
| | Total Rs. 22 x 12=Rs. 264 per annum. |

The amount may be met out of savings under IV Conservancy in the current year's budget.

Letter No. 165, dated 18th February 1898, from the President, Bangalore City Municipality, submitting a copy of the resolution of the Municipal Board, dated the 10th idem, *in re* certain projects relating to the opening out of conservancy lanes, &c., in different parts of the city, as also a plan and estimate for laying out stone-ware pipes from Arlepete road for carrying away the sewage of the western portion of the city at a cost of Rs. 6,193 and requesting sanction to the same and applying to Government for funds to the extent of Rs. 50,000 for carrying out the above works.

No. 11301-3— L. F. 89-97, DATED BANGALORE, 14TH MARCH 1898.

ORDER THEREON.—Government are pleased to grant a loan of Rs. 50,000 to the Bangalore City Municipality on the usual terms in order to enable them to carry out the sanitary improvements referred to in the letter read above. The Chief Engineer is requested to be so good as to lend the services of a competent Public Works Department Officer for preparing projects for these works and for supervising their execution.

2. The only project which is complete is the one relating to the carrying off of the Arlepete sewage. It is sanctioned with the observation that the correct quantity of "Earthwork" as per dimensions given in the detailed estimate and the correct cost thereof are 1,234 c. yds. and Rs. 174, respectively, and not 1,220 c. yds. and Rs. 184 as erroneously entered in the estimate and that the necessary corrections have been made and the estimate reduced to Rs. 6,182. This work should be carried out as quickly as possible.

No. 11784-92—L. F. 83-97, DATED BANGALORE, 19TH MARCH 1898.

ORDER THEREON.—The Municipal Board of Dodballapur* proposed to levy octroi on *cloth manufactured within the municipality* as well as on that *imported* into the town. Before passing final orders on the proposal, the Presidents of the remaining Municipal Boards were requested† to report whether in municipalities which levied octroi on cloth *imported* for consumption therein, any tax was being levied on cloth *manufactured* within the limits of such municipalities.

*Bangalore President's No. 820, dated 14th February 1897.

†No. 8950-57—L. F. 83-97, dated 2nd February 1897.

2. Certain weavers of Harihar complained‡ to Government that the octroi duty on cloth recently levied from them was heavier than the loom tax abolished by Government and prayed for its abolition, and their petitions were forwarded§ to the President for report.

‡Petitions Nos. 1292 and 1737, dated 19th November 1897 and 4th January 1898, respectively.

§Nos. 8092 and 9190—L. F. 303-96, dated 15th January and 7th February 1898.

3. From the replies received to the orders quoted above it would appear that no tax was being levied anywhere on cloth manufactured within municipalities in the State, but that recently the duty was extended to all cloth *manufactured* and *consumed* within the town of Harihar as well as within the marginally noted towns, owing to the municipal revenue having suffered by the abolition of loom tax ordered in Proceedings No. 1711-21—L. F. 150-96, dated 31st January 1897.

4. The Government observe that in accordance with the instructions conveyed in para 3 of Chief Commissioner's Proceedings No. 2627—Mi. 227, dated 26th October 1877, "Octroi" is leviable only "on articles *imported* into towns for consumption therein," and that goods *manufactured* within a municipal town, though consumed therein, are not liable to taxation other than indirectly by way of shop tax or house tax. The Municipal Boards named above appear to have been misled by the reference made in the Proceedings of 31st July 1897 to "a uniform rate *without regard to the place of production* of the goods." This, however, was only intended to remove the distinction, which till then existed between Mysore-made goods and foreign goods as regards liability to taxation.

5. The Government therefore direct that in Dodballapur, the proposed taxation of cloth be limited only to imported goods, whether manufactured in other stations of Mysore or in foreign countries; and that the practice now existing in certain municipalities of the Chitaldrug district, of levying the octroi duty on goods manufactured and consumed within their respective limits, be at once discontinued and the octroi duty confined to goods imported into those municipalities for consumption.

# REVENUE.

*Proceedings of the Government of Mysore.*

READ :—

Letter No. 130, dated 7th August 1897, from the Superintendent of Revenue Survey in Mysore, submitting the progress report of the Mysore Revenue Survey for the survey year ending 31st October 1896.

No. 8043-51—R. 2642, DATED BANGALORE, 1ST MARCH 1898.

REVIEW THEREON.—The progress made on the survey and settlement of taluks was as shown below :—

*Classification.*—Work of the only remaining taluk of Nanjangud, which was in progress in the year previous, was completed and the settlement of the Kankanhalli taluk was begun but not completed during the year under review. The settlement of the Yelandur Jahgir was also completed. The settlement of the Nanjangud and Tirumakudlu-Narsipur taluks and the classification and the settlement of the Sringeri Jahgir have yet to be begun. In addition to the above, 23 inam villages, comprising 22,189 acres, were measured and 36 villages, comprising 49,80[illegible] acres, were classed.

2. *Measurement.*—Five thousand eight hundred and ninety-seven survey fields comprising 35,340 acres against 4,644 fields comprising 24,421 acres were measured. The work in this direction was of a miscellaneous character, such as measurement in detail of inam villages, of lands granted for gold mining purposes, and of Amrut Mahal kavals transferred to the Revenue Department.

3. Five Surveyors and 76 Measurers attached to the Survey Department were employed under the Deputy Commissioners in the several districts on the inspection of boundary marks, the testing of measurement of phod work and other miscellaneous duties. The subdivision of survey numbers is a very important item of work and it is hoped that the Amildars exercise proper check and control over the men employed in it. The modification of Rule XXVII of the Revenue Rules suggested by the Superintendent of Revenue Survey is under the consideration of Government.

4. *Classification.*—The total area classified during the year under review was, as shown below, 1,54,847 acres against 69,759 in the year previous:—

| Year. | No. of fields. | Arable area. | | Unarable area. | | Total. |
|---|---|---|---|---|---|---|
| 1895-96 ... | 23,144 ... | 96,297 | + | 58,550 | ... | 1,54,847 |
| 1894-95 ... | 16,389 ... | 51,285 | + | 18,474 | ... | 69,759 |

The increase is stated to be due to the employment of two classing establishments against only one in the year previous. The number of fields tested was 2,354, including the 47 fields of the Shikarpur taluk classed in 1893-94 according to soil and 552 according to water against 1,517 and 593, respectively, in the previous year, and the mean difference between the original work and the test was two pies in soil and one pie in water against one pie in soil and none in water in the year previous.

5. *Cost of Operations.*—The cost of operations during the year was Rs. 1,40,783-8-11 against Rs. 1,37,856-2-7 in the previous year, and the increase is stated to be due to the increased salary sanctioned to certain survey officers in the latter part of the previous year having been charged for during the whole of the year under review. The total cost of operations of all kinds since their commencement in the year 1863 up to the close of 31st October 1896, amounts to Rs. 64,65,907-2-1.

6. *Allocation of Minor Inams.*—The survey assessment of the lands confirmed as inam in 984 villages was Rs. 30,705 and that of the excess lands *khalsat* or lands resumed to Government Rs. 6,778.

The following letter No. 934, dated 26th February 1898, from the First Assistant to the Resident in Mysore :—

Some doubt having been expressed as to the exact meaning to be attached to side-heading 5 in Table D of the Returns of Agricultural Statistics, "Peasant proprietors paying separately," I am directed to inform you that the Government of India have decided to make a change in the wording of this heading.

2. The object of Table D is to show—

(1) Zamindari holdings classed according to size and constitution (classes 1 to 4);

(2) Raiyatwari holdings (class 5);

and it is most important to maintain the distinction between the two main classes. Class 5 is meant, as explained in the general Note at page XVII of the Memorandum prefixed to the tables, for raiyatwari holdings only, but the heading employed in the return to express this fact is not, perhaps, sufficiently explanatory, although it is well understood in most parts of India. The distinction lies in the system of tenure prevailing and fails to apply always to individual cases. Its essence consists in whether the system is one of separate or of joint responsibility. The heading which seems most suitable is "Small holdings held separate and direct from Government (raiyatwari tenure)", and I am to request that this heading may, in future, be adopted in the Returns of Agricultural Statistics.

No. 8108-15—R. 2657, DATED BANGALORE, 3RD MARCH 1898.

ORDER THEREON.—Ordered that copy of the above be forwarded to the Deputy Commissioners of districts for information and guidance in continuation of Government Order No. 3473-80—R. 1100, dated 6th October 1897.

ORDER THEREON.—Recorded.

2. S. Krishna Iyer, T. Chokkanna and K. G. Shamanna, Amildars of Kolar, Bowringpet and Bagepalli taluks, respectively, should be warned to keep up to the minimum period of touring days. The Deputy Commissioner will report why seven days' leave should not be deducted out of the privilege leave at the credit of J. Srinivasa Rao, Amildar of the Goribidnur taluk, for his short itineration during the month.

3. The Deputy Commissioners of Tumkur, Hassan and Shimoga districts, do not seem to have noticed the short camping out of several Amildars in their districts, though the orders of Government on the subject are plain; and they are requested to do so in future.

C. SREENIVASIENGAR,
*Secy. to Govt., Gen. & Rev. Depts.*

To—The Comptroller, Mysore Government.
The Deputy Commissioners of Districts.

READ :—

Docket No. 538, dated 5th February 1898, from the Deputy Commissioner, Kadur district requesting to be informed whether Government Order No. 5934-42—R. F. 1-97, dated 13th December 1897, raising the minimum area to be granted for coffee cultivation from 5 to 15 acres, applies also to the darkhasts which are pending disposal or only to future darkhasts.

No. 8314-21—R. F. 1-97, DATED BANGALORE, 8TH MARCH 1898.

ORDER THEREON.—The Deputy Commissioner is informed that all pending darkhasts may be disposed of in accordance with the rule under which the minimum has been recently raised.

C. SREENIVASIENGAR. *Secy. to Govt., Gen. & Rev. Depts.*

To—The Deputy-Commissioner, Kadur District.
The Deputy Commissioners of other Districts.

---

No. 8325-38—R. F. 62-97, DATED BANGALORE, 9TH MARCH 1898.

ORDER.—At present, the returns received in the Dewan's Office which furnish Agricultural Statistics in whole or in part are

(i) Revenue Serials No. 24 (Mohatarfa Statement)
No. 28 (Ahaval Return) and
No. 29 (Area)

and (ii) Tables A to E in forms prescribed by the Government of India.

2. The corresponding local accounts on which these are supposed to be based are

The Village Account Forms No. 1 (Khetwar Patrika)
No. 11 (Khaneshumari) and
No. 13 (Mohatarfa).

But these do not correspond with one another in some respects and the result is that some statistics laboriously prepared locally are not sent up and some statistics required in the Dewan's Office have to be specially prepared locally, with risk of error. Under such circumstances, the Government resolve to modify the forms of the accounts and returns above mentioned as explained below.

3. In Village Account Form No. 11 (Khaneshumari) at the end of the statement, the following particulars for "Total human beings" in column 12 shall be inserted. By this means, the information required for columns 64—75 of Revenue Serial No. 28, will be obtained.

5. As it will be interesting to know to what extent the European pattern of plough so often exhibited to the raiyat, is being adopted, column 33 "Ploughs, Total" in Village Account Form No. 11 (Khaneshumari) shall be altered so as to read as follows:—

| Ploughs. | | |
|---|---|---|
| European pattern | Country pattern. | Total. |
| 33 | 34 | 35 |

6. The details of "Wells" in columns 39 to 43 of the Village Account No. 11 (Khaneshumari) are now as follows:—

| Wells. | | | | |
|---|---|---|---|---|
| With steps. | Pickota. | Kapile. | Ruined. | Total. |
| 39 | 40 | 41 | 42 | 43 |

To provide for more information, the columns shall be altered so as to read as follows:—

| Wells. | | | | | | |

| 39 | 40 | 41 | 42 | 43 | 44 | 45 |

7. In order to secure the statistics of bulls for breeding purposes required for the Tables prescribed by the Government of India, the heading and details of columns 13 to 16 in Village Account No. 11 (Khaneshumari) which now stand as follows shall be altered as shown below:—

*At present*—

| Bullocks. | | | |
|---|---|---|---|
| Draught. | Pack. | Plough. | Total. |
| 13 | 14 | 15 | 16 |

*To be altered into*—

| Breeding. | Draught. | Pack. | Plough. | Total. |
| 13 | 14 | 15 | 16 | 17 |

8. Similarly, the details for buffaloes which are now given in columns 17 and 18 as follows shall be altered as shown below :—

*At present—*

| Buffaloes. | |
|---|---|
| Male. | Female. |
| 17 | 18 |

*To be altered into—*

| Buffaloes. | | | |
|---|---|---|---|
| Male for breeding purposes. | Male for other purposes. | Female. | Total |
| 17 | 18 | 19 | 20 |

9. As at present, horses and ponies are returned together, the heading of column 20 in Village Account Form No. 11 shall be altered into "Horses and Ponies."

10. At present, young stock are generally returned in column 28 "Others" in Village Account No. 11. But this information which has to be furnished to the Government of India had better be separately given. For this purpose, a column should be opened between existing columns 19 and 20 with the heading "Young stock—calves and buffalo calves not old enough for work or to produce young."

11. The size of the Form No. 11 should be reduced by omitting the columns provided for the following items which will exist only in a very few cases. The statistics of these items should be given at foot of the statement in the aggregate for the entire village and need not be Isamwar :—

| | | | |
|---|---|---|---|
| Mules. | Camels. | Government offices. | Topes. |
| Elephants. | Schools. | Temples. | |

The heading of column 29, *viz.*, "Total Cattle of all kinds" should be altered into "Total Cattle and animals of all kinds."

| Looms. | | |
|---|---|---|
| Cloth. | Cumbly. | Total. |
| 44 | 45 | 46 |

12. The details for "Looms" which are now given as per margin in the Village Account Form No. 11 (columns 44 to 46) shall be altered so as to stand as follows and correspond with the details required for Revenue Serial No. 28 :—

| Looms. | | | | | |
|---|---|---|---|---|---|
| Cloth. | Cumbly. | Carpet. | Girdle. | Gunny. | Total. |
| 44 | 45 | 46 | 47 | 48 | 49 |

13. The information now furnished at foot of Village Account No. 11 regarding irrigation wells, channels and tanks is meagre. Fuller information is required and should be furnished in the following forms to be styled Appendices I, II and III to Village Account No. 11. By this means, important and useful

informationd regarding the irrigable and actually occupied areas under each tank, well andc hannel will be regularly and continuously available.

APPENDIX I—Channels.

| Name. | From what river or * tank. | No. of months irrigating. | Length in miles. | Atchkat. | | Occupied. | | | | | |

| Total assessment and quit-rent including water-rate ... | | | | | | | | | | | | | | | | | | | |
| Average payment per holding in Rs. .. | | | | | | | | | | | | | | | | | | | |

* *Note.*—The figures in columns 4, 5, 8, 9, 12, 13 and in columns 16 to 19 are to be entered only quinquennially (i. e., every fifth year).

16. The following instructions for the preparation of the foregoing Appendices to Village Account No. 10 (Rent-roll) will be inserted as paras 5 and 6 in the remarks on Form No. 10 in Appendix A to the Land Revenue Rules:—

"(5) The statistics in regard to holdings forming Appendices to Village Account No. 10 relate only to Government land (and not minor inams) and should be prepared by counting up the cases in the columns headed respectively 'Dry' including Nirsardi (water-rate), 'Wet' 'Garden', 'Coffee' and 'Total' including water-rate. The assessment to be reckoned for these Appendices is only the survey assessment *plus* permanent water-rate, if any. Cesses separately levied should not be included. The total area of holdings and the total assessment payable thereon should be equal to those shown in Village Account No. 12 (Jamabandi Goshwara).

(6) It will be sufficient if the figures for 'Assessment' in respect of each grade of holdings by areas, and the figures for 'Area' in respect of each grade of holdings by assessment are written up first for 1897-98 and then quinquennially, *i. e.*, every fifth year. In this way, columns 2, 3, 6, 7, 10, 11, 14 and 15 and the totals will be written up every year and the rest every fifth year."

17. To meet the requirements of statistical returns which are furnished to the Government of India, an abstract in the following form should be appended to Village Account-Enclosure to No. 3 (Inam khate):—

| | Number of estates or inam holdings. | Number of registered holders or share-holders. | Gross area and assessment (Survey area and valuation or beriz.) | | | | Jodi, quit-rent and water-rate payable to Government. |
|---|---|---|---|---|---|---|---|
| | 1 | 2 | 3 | | | | 4 |
| | | | A. | g. | Rs. | a. | |
| Inams held— | | | | | | | |
| (a) As remuneration for current services. | | | | | | | |
| (b) Alienated in perpetuity. | | | | | | | |
| (c) Do for life or lives. | | | | | | | |
| Total ... | | | | | | | |

18. The following should be added as para 8 to the remarks on Village Account Form No. 3 in the Appendix A to the Land Revenue Rules:—

(8) The form prescribed for an abstract to the Inam khate explains itself. In this form, the Amildar will compile one statement for minor inams in all Sirkar villages in the taluk, and another in respect of entire villages alienated (Sarvamanya, Jodi and kayamgutta) in the taluk, and submit the same to the Deputy Commissioner with his annual returns.

19. In the form given at page 90 of Appendix A to the Land Revenue Rules for abstract of Village Account No. 7 (Pahani), columns 2 and 7 "Tank water" and columns 3 and 8 "Channel" should each be subdivided into "Government" and "Private." The following should be inserted as para 7 in the remarks on Village Account Form No. 7:—

(7) In making entries in column 10 "Source of Irrigation", care should be taken to state in each case whether the source of irrigation is Government or private property—such as "Government tank," "Private channel," &c.

20. In the Revenue Serial No. 24 (Mohatarfa statement), provision exists for showing the number of houses, looms, mills, &c., which are exempt from mohatarfa but not the number of carts exempt from mohatarfa. The carts liable to mohatarfa are also not classified. And columns to show a deduction on account of the Municipal share of mohatarfa are no longer required as the entire mohatarfa in municipal towns has (under Government Proceedings No. 11-20—L. F. 116-93, dated 12th October 1894) been made over to the municipalities and no portion of it will appear in the Revenue Serial No. 24. The columns relating to carts which are now as per margin should therefore be altered so as to read as shown below. In this way, the return will correspond with the details prescribed in the Village Account.

| Carts. | | | |
|---|---|---|---|
| Number of carts. | Amount at Rs. 2 each | Deduct moiety to Municipal Funds. | Balance. |

| Carts. | | | | | | | |
|---|---|---|---|---|---|---|---|
| Total number of carts. | Deduct carts used for agricultural purposes and therefore exempted from mohatarfa. | Remainder taxed. | | | | | Amount at Rs. 2 each. |
| | | Halli. | Korta | Country. | Wadder. | Total. | |

21. In Revenue Serial No. 28, statistics of alienated villages and of the raiyat population of alienated villages (sarvamanya, jodi and kayamgutta) are shown in columns 19 to 23 and 79 to 82. There is at present no means of collecting these statistics every year and the liability of the inamdars to furnish them has not been declared. This matter will be dealt with in another order of Government and in the meanwhile, the present practice will be continued.

22. In Revenue Serial No. 28, the columns relating to ploughs which now only show "Increase" and "Decrease" should be altered so as to read as follows, in agreement with the details in Village Account No. 11:—

| Ploughs. | | | | | |
|---|---|---|---|---|---|
| Drawn by eight bullocks. | Drawn by four bullocks. | Drawn by two bullocks. | Total. | | |
| | | | European pattern. | Country pattern. | Total. |

23. The columns relating to wells should also be altered so as to read as follows in agreement with the details in Village Account Form No. 11 as above modified:—

| Wells in disuse. | | Wells in use. | | | | |
|---|---|---|---|---|---|---|
| Because fallen in and in disrepair. | In disuse from other causes. | For drinking purposes. | For irrigation with pickota. | For irrigation with kapile. | For irrigation otherwise. | Total. |

24. At the end of the statement, columns should be added as follows to furnish statistics regarding mills:—

| Sugar-cane mills. | | Oil-mills. | |
|---|---|---|---|
| Old pattern. | Improved pattern. | Old pattern. | Improved pattern. |

25. At present, the information furnished in Revenue Serial No. 28 in regard to tanks and wells is meagre and the distinction 'large' and 'small' is vague. The existing columns which are as per margin shall hereafter be omitted in this statement and information furnished in a separate return in the following form in which tanks are classified with reference to the survey valuation (not the area) of the lands irrigable by them and the information prescribed above in the course of these Proceedings as Appendix to Village Account No. 11 is brought up for the entire taluk.

| Large tanks. | | | | Small tanks. | | | | Tanks in inam villages. | | | | Total tanks. | | | | Wells. | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Government. | | | | Government. | | | | | | | | Government tanks. | | | | | | | |
| In repair. | In good order. | In bad order. | Total. | In good order. | In bad order. | Total. | | Joodi villages. | Kyamgutta villages. | Sarvamanya villages. | Total. | Number of tanks under which land is granted as kodigi. | Kodagi tanks. | | | Total. | Number of wells at which buckets are used. | Number of wells at which pigotas are used. | Reservoir from which water is made to run into the fields. |
| | | | | | | | | | | | | | Number of tanks for which money is given in lieu of land grain. | Number of tanks for which grain is given out of the produce. | Total. | Total tanks in inam villages. | Total wells. | | |

Letter No. 1208, dated 26th June 1897, from the Deputy Commissioner of the Hassan district, requesting that the service rendered as such by the extra gumastas entertained in certain taluks of the district under the authority of Government Proceedings No. 16928-36—G. 3368, dated 6th April 1894, may be taken into consideration in determining the increments to which they are entitled.

Letter No. 3861--1419, dated 15th November 1897, from the Comptroller to the Mysore Government, expressing his opinion with reference to the above.

No. 8587-621—R. 2800, DATED BANGALORE, 16TH MARCH 1898.

ORDER THEREON.—The question is whether the gumastas temporarily entertained out of the lump sum grant sanctioned in the order of the 6th April 1894, for the entire district, and subsequently appointed as Deputy Gumastas on the scales of pay fixed in the revision order of 30th April 1897, can count the service rendered in the former capacity in determining the increments of pay due to them in the latter.

2. According to Article 240 of the Mysore Service Regulations, "an officer transferred from a temporary to a permanent appointment can count his service in the temporary office, if, though at first created experimentally or temporarily, it eventually becomes permanent." But since the rates of pay and the nature of the temporary appointments in the present case are different from those of the subsequent appointments, the Comptroller rightly points out that the officials under advertence cannot be held to have rendered service in an office falling within the description given in that Article.

3. The Government are, therefore, unable to sanction the Deputy Commissioner's proposal.

No. 8732-9—R. 2847, DATED BANGALORE, 17TH MARCH 1898.

ORDER THEREON.—With the above the Deputy Commissioners of Districts submit, in accordance with Circular Memo No. 3117-24—R. 1098, dated 21st September 1896, statements showing the final disposal of applications sanctioned by Government for the grant for cultivation and other purposes of gomal lands during the quarter ending 31st December 1897.

3. In the Mysore, Hassan and Kolar districts, the number of applications pending further disposal is large while there are very old cases in the Kadur and Hassan districts. The Deputy Commissioners of these districts are therefore requested to see that all pending applications and chiefly the old ones are disposed of as expeditiously as possible. The explanation called for in para 2 of Government Proceedings No. 1151-8—R. F. 3-97, dated 27th July 1897, from the Deputy Commissioners of Mysore and Hassan districts should be submitted without further loss of time.

4. In the statements received from the Tumkur district for the quarters ended 31st March, 30th June and 30th September 1897, no mention was made of darkhasts pending from the year 1894-95, while in the statement now submitted two such darkhasts are shown. This requires explanation.

READ—

Letter No. 734, dated 27th January 1898, from the Deputy Commissioner, Tumkur district—

I have the honor to report that in giving effect to the orders contained in Government Proceedings No. 1171-21—L. F. 150-96, dated 31st July 1897, abolishing the loom tax throughout the province from 1st July 1897, the question has arisen whether the owners of looms in non-municipal towns and villages should not be subjected to house tax, and I beg that definite instructions may be issued in the matter.

2. In the note at the end of the table of moharfa taxes issued with the late Commissioner's Official Memo No. 265, dated 28th September 1860, printed at pp 118 and 119 of the Revenue Manual 1866, it is stated that persons paying house tax are not required to pay loom tax and *vice versa*. From this it is plain that the Government intended that only one tax—either house or loom—and not both, should be levied from one and the same person. Now that the loom tax has been abolished, it naturally follows that house tax should be levied, provided the individual concerned is one liable to it under the existing orders. In this view, all weavers are liable to house tax though some of them own lands. The primary occupation is not agriculture and they are therefore liable to pay house tax. In support of this view, I may quote the orders issued in 1860 on the revision of the moharfa taxes, wherein it is distinctly stated that though professional persons may carry on agriculture, such pursuit could only be considered as auxiliary to their profession and that they should therefore be subjected to the payment of house tax.

3. In taxing the houses of weavers during the current year under the above authority, some cases of hardship have arisen. The house tax now imposed, varying as it does with the valuation of the house, has, in a few cases, exceeded the amount of the loom tax the owners were paying hitherto. The scale of valuation which regulates the classes of houses in villages in this district is as shown in the margin according to the orders of 1869 above mentioned. Adopting this scale at the present day, some of the weavers' houses go into the 2nd and 3rd classes and are thus liable to a tax of Rs. 6 and 5 per annum. In cases in which only one loom existed for which a loom tax of but two rupees was paid hitherto, the new house tax of double and treble that amount must of course be felt as a hardship. The rise in the value of houses since the date of the issue of the orders above cited acts as an important factor in creating the hardship above mentioned. Houses valued at Rs. 50 in 1860 are now worth at least three times that sum. And in now adopting the scale of valuation fixed 37 years ago, a tiled house then worth Rs. 4/- which used to be classed under class IV and be subjected to a tax of Rs. 2 now comes under class II as its present value is Rs. 120, and has to pay a tax of Rs. 6. To prevent the hardship arising from this anomaly, a new scale of valuation has to be laid down for general adoption and, until this is done, I beg to propose that it may be laid down that the house tax now to be imposed upon weavers' houses shall in no case exceed the amount of loom tax the owner was paying hitherto.

| 2nd class | ditto | from Rs. 100 to 150. |

| 4th class | ditto | below Rs. 50. |

No. 8675-82—R. F. 150-96, DATED BANGALORE, 17TH MARCH 1898.

ORDER THEREON.—Government observe that the levy of loom tax having been abolished in the Government order cited above, it is certainly necessary that house tax should be levied under existing orders from all persons liable to pay it.

2. With reference to para 3 of his letter in which it is stated that in many cases the house tax calculated according to the present valuation of houses is very much heavier than the loom tax hitherto levied from the loom-owners, the Deputy Commissioner is informed that he must regulate his procedure in accordance with the existing rules and practice on the subject. No general order such as is suggested is called for.

Letter No. 590, dated 10th November 1897, from the Deputy Commissioner, Bangalore district, submitting two statements showing the particulars of irrigation wells completed and incomplete in the Nelamangala taluk, inspected by the Inspector of Agricultural Banks in October 1897.

2. Government Order No. 4914—R. 1572, dated 7th December 1897, requesting the Deputy Commissioner of Bangalore to submit his further reports in the cases of wells sunk by S. Rudrian of Manne village and Sampangiraya of Immachanahalli village in the Nelamangala taluk, referred to in the statement received with the above letter.

3. Letter No. 851, dated 20th December 1897, from the Deputy Commissioner, Bangalore, reporting in the case of the additional loan applied for by Rudriah for sinking an irrigation well in his land in the village of Manne in the Nelamangala taluk.

READ ALSO:—

4. Letter No. 987, dated 27th January 1898, from the same Officer, submitting the entire vernacular records connected with the loan granted to the said Rudriah.

5. Letter No. 993, dated 28th January 1898, from the same Officer, submitting reports in the case of loans granted to Sampangiraya of Immochanahalli village in the Nelamangala taluk.

No. 8683-4—R. 2820, DATED BANGALORE, 17TH MARCH 1898.

ORDER THEREON.—From the vernacular records received with the last of the letters read above, it is observed that Rudriah was granted in 1893-94 a loan of Rs. 150 for sinking an irrigation well in his land in the village of Manne in the Nelamangala taluk, and on submission of a completion bill for Rs. 191-6-0 a final loan order was issued on the 16th August 1893 for Rs. 150, as originally sanctioned. The Special Duty Officer who was in charge of Irrigation Wells seems to have refused the grant of the additional loan applied for by the applicant on the ground that the rates entered in the bill were high and the well had not been sufficiently deepened as agreed to by the applicant. Rudriah's application to the Deputy Commissioner was also rejected in April 1897.

Under paras 17 and 18 of the Special Rules framed under Notification No. 183, dated 21st July 1891, an applicant can in certain cases ask for a higher sum than that originally applied for, but this he can do *only* before the issue of a final loan order and not afterwards, unless the additional amount asked for is for the improvement of the well for which a loan has already been granted. *Vide* Government Order No. 7790-97—2619, dated 7th March 1897.

Under such circumstances, the Inspector's remark that Rudriah seems to have spent more than what he got from Government as a loan and that his application for a further loan has been refused, though, under Rule 17 of the Special Rules framed under the Land Improvement Loans Regulation IV of 1890, he is entitled to it, is not supported by the rules in force. In the absence of sufficient details such remarks are likely to be misconstrued and the Inspector's attention will be drawn to this point.

As regards the case of Sampangiraya, referred to by the Inspector of Agricultural Banks, it is observed that a loan of Rs. 200 was sanctioned and Rs. 100 advanced about two years ago for sinking an irrigation well in his holding, Survey No. 27, situated in the village of Immachanahalli in the Nelamangala taluk, and that the man has failed to complete the well within the stipulated time. The Deputy Commissioner, however, reports that the applicant could not complete the work owing to the scarcity of 1897 and recommends an extension of time for the completion of the well till the end of June 1898, which is accordingly sanctioned.

READ:—

(2) Letter No. 544, dated 14th February 1898, from the Superintendent of Revenue Survey in Mysore.

I have the honor in reply to the Proceedings of Government Order No. 7247-8—R. 2342, dated the 2nd February 1898, on the subject of re distributing the charges of the Kamambadi and Doddahalli shanbhogi charges in the Holé-Narsipur taluk.

2. I welcomed the proposal of the Deputy Commissioner in 1889-90 to make three charges instead of two of the fourteen villages concerned, inasmuch as by the Deputy Commissioner's proposal the terms of Pakka Potgi Rule XXXIII were observed. Now a re-distribution of villages is suggested which would make one charge of eight villages with a revenue of Rs. 2,130 and a second charge of six villages with a revenue of Rs. 1,804, the arrangement being opposed to Rule XXXIII. I am unable to see why the distribution should be made to suit the convenience of Srikantaya and Kappanna, especially as the present distribution into three charges is in accordance with rules, the only argument in favor of their proposals being a small saving to Government which I think cannot be weighed against infringement of rules.

No. 8897-905—R. 2912, DATED BANGALORE, 21ST MARCH 1898.

ORDER THEREON.—The Superintendent of Revenue Survey states that the effect of the proposed re-distribution is to make one charge of eight villages with a revenue of Rs. 2,130 and a second charge of six villages with a revenue of Rs. 1,804, which arrangement is opposed to Rule XXXIII of the Pakka Potgi Rules. He is therefore of opinion that the proposed distribution should not be made to suit the convenience of the hissedars, the only argument in favor of the proposal being a small saving to Government, which could not be weighed against an infringement of the rules.

2. Government consider that the objections of the Survey Superintendent are very sound, and that for the reasons given by that officer the proposal of the Deputy Commissioner to form two shanbhogs' charges out of the existing three, cannot be sanctioned.

Letter No. 552, dated 17th February 1898, from the Superintendent of Revenue Survey, submitting his opinion on the subject.

No. 9018-26—R. 2942, DATED BANGALORE, 22ND MARCH 1898.

ORDER THEREON.—Shanbhogs Venkataramaiya and Suryanaramaiya of the respective firkas of Mategatta and Madane having applied for the sub-division of the said firkas into six scales in accordance with the division privately effected by them and their four brothers, the late Deputy Commissioner, Mr. A. Krishnaswamaiengar is stated to have sanctioned it subject to confirmation on the fitness of the proposed officiators for duty being proved; and also ordered that all the six brothers might be jointly registered as shanbhogs. The two firkas consist, respectively, of nine and eight villages with a beriz of Rs. 2,255-15-2 and Rs. 2,009-2-1. The present Deputy Commissioner states that the sub-division in question is against Potgi Rules although it may suit the purpose of the brothers, and that the potgi of each sub-division would be scarcely enough to enable a person to live on it, and solicits the orders of Government on the subject. The Survey Superintendent, who was consulted in the matter, states that the sub-division proposed is very much opposed to the Potgi Rules, and that the utmost that the rules would admit would be the division of each firka into two charges.

2. Government observe that though the amounts of beriz of the two firkas are slightly in excess of the limits given in Rule XXXIII of the Potgi Rules, yet the charges have been conveniently worked ever since they were framed and the Deputy Commissioner does not mention any administrative inconvenience. The late Deputy Commissioner, Mr. A. Krishnaswamaiengar ought not to have interfered with the charges without the sanction of Government. No change is needed, and the charges should remain as they were originally constituted.

Letter No. 501, dated 19th January 1898, from the Deputy Commissioner, Kadur district, submitting a statement showing the particulars of gomal land proposed to be granted for garden cultivation in the Kadadal village, Gonibid hobli, Mudgere taluk.

No. 8388-96—R. 2742, DATED BANGALORE, 10TH MARCH 1898.

ORDER THEREON.—The facts of the case are as follows :—

On the 3rd December 1889, one Baire Gowda *bin* Komare Gowda, applied for ten guntas of land out of Survey No. 94 (gomal) in the Kadadal village for constructing a house and a cattle-shed, and also for a drying ground. Before the application could be sanctioned, Baire Gowda had unauthorizedly entered upon four guntas of land and built thereon a thatched house and a cattle-shed. The case was therefore brought on the Takrar Takhta of the year 1890-91 for the orders of the Jamabandi Officer. Colonel Campbell (Deputy Commissioner), who conducted the jamabandi of the taluk, observed that Baire Gowda had built the house without permission, for facility of cultivating a waste land which he had taken up for a kandayam of Rs. 12, and ordered that a fine of one rupee be recovered for the unauthorized act, and that an application be made for the alienation of the land with the object of encouraging cultivation. Accordingly, the fine was recovered, and steps were taken to collect the necessary information for the preparation of an alienation statement. The villagers executed a mahazar on the 7th July 1892, to the effect that they had no objection to the grant of ten guntas of land which was valued at Rs. 5. But Baire Gowda stated that he wanted one acre of land, as ten guntas would not suffice for him, that pending the sanction of that application he would pay Rs. 5 for the ten guntas, and that he would pay coffee assessment on the one acre of land at one rupee per acre. Subsequently, he evaded payment of Rs. 5 and also unauthorizedly appropriated twenty guntas of land besides the four guntas already occupied, and turned it into a plantain garden. The Amildar reported these circumstances to the Deputy Commissioner in July 1895, and Mr. Sparkes (the then Deputy Commissioner) ordered that as Baire Gowda appeared to have taken up the land for cultivation and not for building a house to enable him to carry on his cultivation in a neighbouring survey number, the land should be resumed to Government and Baire Gowda evicted. In October 1895, the shekdar reported that when the Deputy Commissioner's order was made known to Baire Gowda on the spot, he not only refused to quit the land and remove the buildings thereon, but also defied the shekdar, obstructed the shekdar's peon and the kulwadi, and said that he was prepared to suffer any punishment that might be inflicted on him by Government. At the same time, Baire Gowda petitioned the Deputy Commissioner, requesting that the land which he could not conveniently quit, might be confirmed to him. A report having been called for from the Amildar, the matter was again placed before the Deputy Commissioner, Mr. Sparkes, during his jamabandi of the taluk in November 1895. He fined Baire Gowda Rs. 10 for the unauthorized appropriation of twenty guntas, and ordered that he might obtain on darkhast whatever he wanted. Baire Gowda thereupon paid the fine and applied for the grant of one acre of land including the portion already occupied by him for garden cultivation on full garden assessment. One acre and one gunta of land having already been sub-divided in to Phod No. 166, and the villagers having no objection to the grant of the same to the applicant, the Deputy Commissioner now recommends the grant, and states that there is a water-course at a distance of eleven yards to the west of the land in question irrigating some of the wet lands through which it passes.

2. Under the circumstances narrated above, the grant of one acre and one gunta of land for garden cultivation is sanctioned, the assessment leviable thereon being fixed in communication with the Superintendent of Revenue Survey. Reservation of fifty yards' margin between the water-course and the land does not seem to be necessary in this case. Government, however, observe that the applicant's statement in his muchalika, dated 1st April 1896, that he would make use of the water of the stream for garden cultivation is at variance with the Deputy Commissioner's observation that the water-course is reported to be not in any way required for the land applied for.

3. Government also deem it necessary to draw the attention of the Deputy Commissioner to the inconsistent action and orders of the Jamabandi Officer and the District authorities in this case, and to point out the desirability of the same being avoided in a case of this kind, where, on account of such orders, the defiant and stubborn conduct of a transgressor of Revenue Laws has had to be condoned and his illegal acts acquiesced in.

Letter No. 1188, dated 9th February 1898, from the Deputy Commissioner, Kadur district, to the Superintendent of Revenue Survey in Mysore—

I have the honor to forward herewith, in original, for favor of your opinion, applications, dated 27th April and 7th June last, received from Mr. W. S. Crawford, praying for the reduction of assessment on certain cardamom lands in the Bhairapura and Bhairapura estate villages in the Mudgere taluk.

2. Seeing that the rate of assessment of Survey No. 85, belonging to one Urbage Bhairegauda in the Bhairapura village in Mudgere was reduced from Re. 1 to 8 annas per acre by Government in their Proceedings No. 7502-4—R. F. 340-92 of the 20th February 1897, Mr. Crawford prays that a similar concession may be extended to Survey Nos. 84 and 143 in the Bhairapura village and Survey Nos. 2, 3, 4, 5 and 9 in the Bhairapura estate village in the khate of Mr. Brooke Mockett, on the ground that the circumstances under which concession was shown in the other case in the Government Order above quoted exist in the case of his lands also.

3. It will be seen from the accompanying statement that in 1887, two coffee title-deeds were received with your letter No. 1067 of the 8th March 1897, and granted to Mr. Brooke Mockett for Survey Nos. 2, 3, 4, 5, 6 and 8 in the Bhairapur estate village, and for Nos. 84, 140 and 143 in the Bhairapura village, and that the rate of assessment for Survey Nos. 6, 8 and 140 was then reduced to 8 annas per acre, while that for the remaining numbers was fixed at Re. 1 per acre.

4. Survey Nos. 9 and No. 1 paike which were subsequently acquired by Mr. Crawford appear to be such as can be dealt with along with the other numbers in the matter of the concession prayed for.

5. The Amildar who inspected these lands in January last, reports that the Survey Nos 143, 140 and 84 are situated side by side on the ghats along with Survey No. 85 for which concession has been already shown by Government, and that the cardamom crop from all the lands assessed at Re. 1 per acre is better than that from the lands assessed at the lower rate of 8 annas per acre and recommends that the concession applied for may be extended to the lands in question.

6. It appears to me that since the lands now in question are clearly subjected to the same disadvantage of excessive rainfall as the other lands of which the assessment has been reduced under the Government Order of 20th February 1897, a reduction all round to an eight anna assessment should be made in the case of eight survey numbers now reported on by the Amildar in his report No. 712, dated 28th ultimo, herewith forwarded together with the precis of the case for reference and favor of return. If you agree with me in the above, I shall forward Mr. Crawford's applications to Government for favorable consideration and orders.

No. 9063-4—R. F. 340-92, DATED BANGALORE, 22ND MARCH 1898.

ORDER THEREON.—The total extent of the lands under actual cultivation (exclusive of kharab) which is in need of relief in the two villages above referred to, is 189 acres and 37 guntas bearing an assessment of Rs. 189-12-0, and it is now proposed to re-assess them at 8 annas an acre all round, reducing thereby the total assessment to Rs. 94-12-0. This proposal involving, as it does, a loss of revenue to the extent of Rs. 95 is approved and will be given effect to from the current year. Provided, however, that if, at any future time the holder of the lands in question applies for their subdivision in view to the inferior portions being resigned, the present rate will be re-imposed on the portions to be retained.

Letter No. 1006, dated 26th February 1898, from the Deputy Commissioner, Mysore District—

1 have the honor to state that persons who purchased lands under the new Chamaraj Channel Extension, Yedatore taluk, at the public sale held by me on the 10th instant and succeeding days, stand in need of help from Government to enable them to bring their lands under cultivation.

2. The difficulty generally felt by them consists in procuring cultivators in the vicinity, and it is also applicable to the case of lands set apart as endowments for the Sitavilas and Chamarajendra Agrahars, Mysore City.

3. The establishment of a village in some central place, and the offer of certain concessions to induce agriculturists to come and settle there would seem to be a *sine qua non*. Some of the raiyats of Mirle and Saligram who are in want of lands expressed a desire to cultivate the new lands under the Chamaraj Channel Extension and to build houses in the neighbourhood thereof.

4. I have selected a suitable site for the village and now arranged for the same being allotted for building purposes, with due regard to the requirements in respect of sanitation, &c. The Amildar has been directed to make it known to the public that raiyats who would build houses and settle down in the locality within two months from the date of such allotment will be granted the requisite sites free and that they will thereafter be each given 2 acres of dry land for cultivation on assessment, one free of charge and the other on payment of an upset price therefor.

5. Persons who do not conform to the above conditions will not be admitted to the concessions proposed. I beg to solicit confirmation of the action taken by me in the matter.

6. In conclusion, I may add that the success of the sale of the lands extending over 600 and odd acres which fetched nearly Rs. 71,000 is mainly due to a promise held out by me to afford every possible facility to establish a new village in a most central part where the lands are situated.

No. 8851-—R. 2902, DATED BANGALORE, 19TH MARCH 1898.

ORDER THEREON.—The concessions recommended by the Deputy Commissioner, namely—

(1) free grant of building sites to such of the raiyats as would build houses and settle down in the neighbourhood of the Chamaraj Channel Extension within two months from the date of allotment; and

(2) grant of two acres of dry land to each raiyat who fulfils the above condition, one free of payment of price and the other for an upset price,

are sanctioned.

3. It is noticed with regret that the number of darkhasts pending in the Mysore district has still risen and those remaining for upwards of three years are as high as 88, the last figures being 25. The dates of two darkhasts are not mentioned. The attention of the Deputy Commissioners of the Mysore and Hassan districts is drawn to the observations made in para 6 of Government Proceedings No. 6678-85—R. F. 47-97, dated the 20th January 1898, and they are requested to submit the special report therein called for as quickly as possible. The Deputy Commissioners of Mysore and Tumkur are again requested to submit the explanation called for in para 5 of the Proceedings cited above.

Letter No. 686, dated 24th November 1897, from the Deputy Commissioner, Bangalore district, stating that, as prayed for by shanbhog Nanjundaiya of Kadagathur in the Kolar taluk, the village of Raghupathi Hosahalli in the Hoskote taluk, of which he is shanbhog, may be transferred to the Kolar taluk, as it is 20 miles distant from Hoskote and 12 miles from Kolar, and is moreover surrounded by villages of the Kolar taluk.

(2) Docket No. 2048—603, dated 20th December 1897, from the Deputy Commissioner, Kolar district, stating that there is no objection to the transfer of the village referred to.

(3) Letter No. 600, dated 5th March 1898, from the Superintendent of Revenue Survey in Mysore, endorsing the opinion of Mr. J. L. Mackay, Assistant Superintendent, to the effect that the village being situated on the boundary dividing the taluks of Hoskote and Kolar, its transfer to the latter taluk will not be out of place.

No. 9102-4—R. 2974, DATED BANGALORE, 24TH MARCH 1898.

ORDER THEREON.—Under the circumstances explained in the letters read above, the transfer of the village to the Kolar taluk is sanctioned. A Notification will accordingly be published in the *Gazette*.

Letter No. 459, dated 8th November 1897, from the Deputy Commissioner, Tumkur district, submitting for orders, copies of correspondence between him and the Comptroller, Mysore Government, as regards the position to be assigned in the baravard, to the daftarband attached to each taluk to assist the record-keeper in sorting and maintaining the records under the authority of Government Proceedings No. 11906-A—Mis. F. 35-96, dated 30th April 1897.

No. 9089-97—R. 2969, DATED BANGALORE, 24TH MARCH 1898.

ORDER THEREON.—The Comptroller is of opinion that the daftarband belongs to the taluk menial establishment and should be classed as such in the baravard, and that the mere fact of his being required to assist the record-keeper does not constitute him a member of the clerical establishment nor make his service superior. The Deputy Commissioner on the other hand contends that the daftarband is a member of the clerical establishment of the Taluk Cutcherry and not a menial servant, though his service is inferior.

2. Government observe that the position assigned to the daftarband is neither purely clerical nor altogether menial. He will help the record-keeper in sorting the records and will also be responsible for keeping the daftars clean and for removing them from and placing them again in proper positions. On the whole, the matter of discussion is very trivial and technical and Government do not think it of sufficient importance to call for a decision. The daftarband will therefore be shown in the position assigned to him by the Comptroller.

2. There is a decrease aggregating Rs. 32,653 under Current Demand in the Mysore, Shimoga, Chitaldrug, Kadur and Hassan districts as shown in the margin. The Deputy Commissioners of the Hassan and Kadur districts report that the decrease was due to the receipt of a smaller number of darkhasts for coffee and other lands during the year. The Deputy Commissioner of the Shimoga district who has not as yet reported the cause of the decrease observed in Government Proceedings No. 7556-64—R. 2453, dated 11th February 1897, is requested to do so without further loss of time. The decrease of Rs. 20,243 and Rs. 3,455 in the Mysore and Chitaldrug districts, respectively, requires explanation.

| Districts | Last year up to end of January 1897 | Current year up to end of Jan. 1898 | Decrease |
|---|---|---|---|
| Mysore ... | 32,245 | 12,002 | 20,243 |
| Shimoga ... | 1,85,699 | 1,80,346 | 5,353 |

| Total ... | 5,07,737 | 4,75,084 | 32,653 |

3. The collections for the period under review show an increase of Rs. 133,868. The collections given by the Deputy Commissioner of Kolar differ from the Comptroller's figures by Rs. 436 as shown in the margin. The Deputy Commissioner's attention is drawn to this office No. 7556-64—R. 2453, dated 11th February 1898, and he is requested to adjust the difference at an early date, in communication with the Comptroller.

| | Rs. |

| As per Comptroller's statement ... | 69,503 |
| As per Deputy Commissioner's returns | 69,067 |
| | 436 |

4. The balance in all the districts except Chitaldrug and Bangalore is above Rs. 25,000. The percentage of balance to the total demand as compared with the corresponding period of the past year stands as noted below :—

| Districts. | 1896-97. | 1897-98. |
|---|---|---|
| Bangalore ... ... ... ... | 46·2 | 43·1 |
| Kolar ... ... .. ... | 54·2 | 63·7 |
| Tumkur ... ... ... ... | 30·5 | 42·5 |
| Mysore ... ... ... ... | 37·8 | 45·2 |

| | 1897-98 ... | 83,461 | 23,998 | 5,188 | ..... | 4,47,233 |

2. There is a decrease under current demand in all the districts except Kolar as shown below:—

| Districts. | 1896-97 | 1897-98. | Difference. |
|---|---|---|---|
| | Rs. | Rs. | Rs. |
| Bangalore .. ... | 7,283 | 6,674 | — 609 |
| Kolar ... ... | 9,629 | 17,116 | + 7,487 |
| Tumkur ... ... | 5,691 | 5,563 | — 128 |
| Mysore ... ... | 31,016 | 9,890 | — 21,126 |
| Hassan ... ... | 22,012 | 15,076 | — 6936 |
| Shimoga ... ... | 6,290 | 3,426 | — 2,864 |
| Kadur ... ... | 15,040 | 9,736 | — 5,304 |
| Chitaldrug ... ... | 8,150 | 4,522 | — 3,628 |
| Total ... | 1,05,111 | 72,003 | — 33,108 |

In the Hassan district the falling off is reported to be due to the number of darkhasts for coffee and other lands during the year 1897-98, being less than that in the previous year. In the Mysore district the decrease is very large and requires explanation, which the Deputy Commissioner is requested to furnish.

3. The proportion which the outstanding balance bears to the entire demand is shown below:—

| Districts. | 1896-97. | 1897-98 |
|---|---|---|
| Kolar ... ... .. | 57·1 | 67·1 |
| Shimoga ... ... ... | 51·9 | 64·1 |
| Hassan ... ... ... | 65·5 | 62·2 |
| Mysore ... ... ... | 38·8 | 49·8 |
| Tumkur ... ... ... | 32·3 | 47·3 |
| Bangalore ... .. ... | 50·2 | 46·9 |
| Chitaldrug ... ... ... | 19·2 | 38·5 |
| Kadur ... ... ... | 18·3 | 24·9 |

The above figures show that the collection work does not compare favorably with that of the last year except in Bangalore and Hassan.

4. The balances remaining uncollected in the Kolar, Shimoga, Mysore, Hassan and Tumkur districts are heavy and the Deputy Commissioners concerned are requested to take steps to leave as little uncollected balance as possible before the close of the present collection season.

2. The total loss of cattle in the province during the period under review was 63,128 against 76,898 in the corresponding half of last year, showing a decrease of 13,770. In the Kolar and Tumkur districts there has been an increase in the number of deaths of 2,748 and 1,492, respectively. It is satisfactory to note that, on the whole, deaths from sickness and accidents were fewer than in 1896-97. The Deputy Commissioner, Tumkur district, where the increase is mostly due to death from "accidents and other causes" is requested to investigate the cause.

C. SRENIVASIENGAR,
*Secy. to Govt., Gen. & Rev. Depts.*

To—The Deputy Commissioners of Districts.

READ :—

Returns of "Revenue Cases" and "Miscellaneous Proceedings" filed, disposed of, and pending in the several Courts of the Mysore province for the months of October, November and December 1897.

No. 9297-304—R. 3034, DATED BANGALORE, 29TH MARCH 1898.

ORDER THEREON.—The appended statement marked A prepared in this office shows the number of "Regular," "Original," "Appeal" and "Referred" cases filed and disposed of during the period under review as compared with those of the corresponding period of 1896.

2. The dates of the oldest cases pending in the Bangalore, Shimoga, Tumkur, Mysore, Chitaldrug and Hassan districts are given below :—

| | | | | |
|---|---|---|---|---|
| Bangalore | ... | ... | ... | 15th January 1895. |
| Shimoga | ... | ... | ... | 17th do 1897. |
| Tumkur | ... | ... | ... | 19th February 1897. |
| Mysore | ... | ... | ... | 6th March 1897. |
| Chitaldrug | ... | ... | ... | 12th March 1897. |
| Hassan | ... | ... | ... | 14th April 1897. |

The Deputy Commissioners concerned are requested to arrange for the early disposal of these cases, especially in the Bangalore district, wherein the cases dated so far back as 15th January 1895 are still pending. In the returns received from the Kolar district, these dates have not been given notwithstanding the remarks in the previous reviews.

The Deputy Commissioner is therefore requested to see that such omissions do not occur in future returns

3. The disposal of "Petitions" and "Miscellaneous Proceedings" is exhibited in the subjoined statement marked B.

4. The returns from the Mysore district, which ought to have been submitted to Government before the 15th of January 1898 (*vide* Government Proceedings No. 10-20—R. F. 2-92, dated 1st July 1892) were submitted on the 8th March 1898. This delay should have been avoided. The Deputy Commissioner is requested to be punctual in the submission of his returns in future.

C. SREENIVASIENGAR,

No. 1061, dated 11th March 1898, Deputy Commissioner, Mysore.

No. 9421-8—R. 3083, DATED BANGALORE, 30TH MARCH 1898.

ORDER THEREON.—Recorded.

2. No explanation is given for the short itineration of the Kankanhalli Amildar, Kantiravachar. The Deputy Commissioner is requested to report what notice he proposes to take of the short itineration.

3. The explanation called for by the Deputy Commissioner of Kolar from the Amildar of the Sidlaghatta taluk, with the Deputy Commissioner's remarks thereon, should be submitted to Government.

4. The Deputy Commissioner of Tumkur is requested to submit the explanations of the marginally noted Amildars for their short touring with his observations as to why a corresponding deduction should not be made from the privilege leave at their credit.

Mahomad Raza, Tumkur taluk.
C. V. Krishnaswami Rao, Chiknayakanhalli taluk.
A. Venkatadesigam Iyengar, Sira taluk.
R. Shama Rao, Kunigal taluk.

5. As the explanations of the marginally noted Amildars in the Hassan district are unsatisfactory, the Deputy Commissioner is requested to give his opinion with reference to para 4 *supra*.

Lakshmanasastri, Arsikere taluk.
P. Subarayalu Naidu, H. Narsipur.
B. Sankaraiya, Arkalgud taluk.

6. The Amildar of the Honnali taluk has not done sufficient touring nor given a satisfactory explanation for the omission.

7. No explanation is forthcoming for the short touring of the Amildar of Davangere, nor has the Deputy Commissioner noticed this short itineration.

Correspondence ending with letter No. 741, dated 31st January 1898, from the Deputy Commissioner, Tumkur district.

No. 8070-73—R. F. 75-97, DATED BANGALORE, 2ND MARCH 1898.

ORDER THEREON.—With the above in duplicate, the Deputy Commissioner submits the Memorandum and Articles of Association of the proposed Agricultural Bank at kasba Chiknayakanhalli of the Chiknayakanhalli taluk.

2. The Bank is proposed to be established by 30 Members for the benefit of Chiknayakanhalli and 11 other villages in the Chiknayakanhalli taluk. The Members own 140 acres and 34 guntas of land, the aggregate value thereof being estimated at Rs. 42,785 with a liability of Rs. 5,064.

3. The Members propose to start the Bank with a capital of Rs. 15,000 the grant of which is stated to have been recommended by the Amildar and the Inspector, Agricultural Banks.

4. Government accordingly sanction an advance not exceeding Rs. 15,000, being made for the Agricultural Bank referred to above, and authorise the Deputy Commissioner to place the said amount for the purpose in the Chiknayakanhalli Taluk Treasury. Interest most be recovered from the Bank half-yearly up to 30th June and 31st December of each year at 4 per cent per annum on the sums actually borrowed by the Bank.

5. The Memorandum and Articles of Association will be forwarded to the Registrar, Joint Stock Companies, with a request that he will take steps to get the same duly registered. The existing encumbrances must all be discharged and the documents, &c., connected therewith taken back and properly secured.

6. Government note the appointment of M. Venkatesaiya and G. Siddanna, as councillors in places of Rama Rao and Vyasa Rao, Revenue Gumasta and Taluk Shroff, whose names have been struck out.

Letter No. 540, dated the 5th February 1898, from the Deputy Commissioner, Kadur district

No. 8219-22—R. F. 68-97, DATED BANGALORE, 5TH MARCH 1898.

ORDER THEREON.—With the above letter, the Deputy Commissioner submits the Memorandum and Articles of Association of an Agricultural Bank proposed to be established at Sakrepatna, Kadur taluk.

2. The Bank is proposed to be established by 14 members. The members own 56 acres and 38 guntas of kandayam and 4 acres and 3 guntas of inam lands, the aggregate value of which is estimated at Rs. 31,900 with a liability of Rs. 10,374, of which Rs. 3,765 represent the debts secured by the mortgage of the landed property.

3. The members propose to start the Bank with a capital of Rs. 25,000, but the Deputy Commissioner and the Inspector of Agricultural Banks think that an advance from Government of Rs. 20,000 is sufficient.

4. Under these circumstances, Government are pleased to sanction the grant of an advance of Rs. 20,000 being made for the Agricultural Bank referred to above, and authorize the Deputy Commissioner to place the said amount for the purpose in the Taluk Treasury. Interest must be recovered from the Bank half-yearly up to 30th June and 31st December of each year at 4 per cent per annum on the sums actually borrowed by the Bank.

5. The applicants propose to regulate the grant of loans by the Bank, not according to the limit laid down in para 6 of Government Proceedings No. 5038-47—Fl. 274, dated the 2nd December 1895, but according to a scale under which a loan of Rs. 2,250 is admissible under classes i, ii and iii, with a proviso that no member shall at any time be indebted to the Bank in a larger sum than Rs. 2,500 including loans of all descriptions granted both to himself and to other members on his security. As the Inspector supports this proposal on the ground that the existing liability of some of the members exceeds Rs. 1,000, and that more funds are required for the improvement and maintenance of the garden lands which he has inspected, the Government are pleased to authorize the grant of loans under classes i, ii and iii up to Rs. 2,250 as a special case.

6. The Memorandum and Articles of Association will be returned to the Deputy Commissioner with a request that he will take steps to get the same duly registered. The existing encumbrances must all be discharged and the documents, &c., connected therewith taken back and properly secured.

READ:—

(1) Correspondence ending with letter No. 485, dated 27th October 1897, from the Deputy Commissioner, Mysore district, recommending that the District Surveyor of his district who is borne on the establishment of the Survey Department, be allowed to draw leave and travelling allowances under the Mysore Service Regulations, a similar concession having been allowed to the Surveyors attached to the districts of Hassan, Kadur and Shimoga, who are borne on the District Revenue establishments.

(2) Letter No. 364, dated 2nd December 1897, from the Superintendent of Revenue Survey in Mysore—

I have the honor to acknowledge the receipt of your docket No. 5659—421, dated 17th November 1897, on the subject of travelling allowance to District Surveyors.

2. I append a statement marked A which will serve to show the present distribution of the District Surveyors, their service, present pay and other particulars including the rate of batta.

3. It will be seen that the District Surveyors of Hassan, Kadur and Shimoga are attached to, and paid by the Revenue Department of the district, while the Surveyors in all other districts are still borne on the strength of, and paid by the Survey Department.

4. The result of this dual system is that differences affecting pay, promotion and allowances almost unavoidably exist.

5. I think all the District Surveyors should be brought on to the same footing as the Surveyors of the Hassan, Kadur and Shimoga districts, as suggested by the Deputy Commissioner of Mysore in his letter No. 458 of the 27th October 1897. This course having been adopted, the recommendation of the Deputy Commissioners in special cases and under general rules in ordinary cases will regulate promotion.

6. I would suggest the following general rules :—

| | | Rs. |
|---|---|---|
| 1 | Pay on first appointment as District Surveyor ... ... | 50 |
| 2 | Pay after two years' approved service ... ... ... | 60 |
| 3 | Do five ditto ... ... ... | 70 |
| 4 | Do ten ditto ... ... ... | 80 |
| 5 | A malnad allowance of Rs. 20 per mensem in malnad districts. | |
| 6 | Travelling allowance at the rates prescribed in the Mysore Service Regulations. | |

The above rates are about as liberal as the Bombay rates for District Surveyors before the same men were absorbed into the Department of Land Records and Agriculture some seven or eight years ago and in which latter, as Deputy Inspectors, their services are much more highly paid up to about Rs. 150 I believe.

7. As there has undoubtedly been great inequality in the pay of the present incumbents, with reference to their actual service in the grade of District Surveyor, I would very strongly recommend that their pay on being permanently attached to the Revenue Department should be as shown below, based upon the general rules proposed in the preceding para.

| Number. | District. | Name. | Date of appointment as District Surveyor. | Proposed pay. |
|---|---|---|---|---|
| | | | | Rs. |
| 1 | Bangalore ... ... | Gurnath Narhar ... ... | 1st November 1882... | 80 |
| 2 | Tumkur ... | Krishnaji Hanmant ... ... | 2nd March 1897 ... | 50 |
| 3 | Kolar ... ... | Balaji Jivaji ... ... | 1st August 1895 ... | 60 |
| 4 | Mysore ... ... | Pandrang Sabaji ... ... | 1st August 1894 ... | 60 |
| 5 | Chitaldrug ... ... | Shankar Narsimha ... ... | 1st November 1892.. | 70 |
| 6 | Hassan ... ... | Narhar Laxman ... ... | 1st January 1889 ... | 70+20 |
| 7 | Kadur ... ... | Shrinivas Vyas Rao ... ... | 14th October 1886 ... | 80+20 |
| 8 | Shimoga ... ... | Ramachendra Ganesh ... ... | 1st November 1882... | 80+20 |

8. It so happens that the higher paid men hitherto have been in the malnad districts and by this coincidence the evils of inequality have been lessened but still I attach much importance to the adoption of some general rules to regulate promotion.

9. The malnad allowance, I regard, is very necessary. It will be necessary to give the men a change occasionally from the malnad to the maidan and the allowance in the former districts will help to reconcile the Surveyors to the undoubtedly heavier and more harassing work in the malnad.

10. I have reason to believe that Deputy Commissioners will fully support me in the proposals I now make, indeed in the case of more than one of the Surveyors, especially Gurnath Narhar. Deputy Commissioners have strenuously urged me to grant promotion and I have only been deterred from doing so, because I was unwilling to make such distinctions of pay amongst men in a department to a great extent under process of reduction.

11. It may be urged against the general rules which I have proposed that they do not take into consideration total length of service but only service since date of appointment as District Surveyor. It must be remembered however that whenever I have had to appoint a Measurer to the post of District Surveyor, I have selected them in order of merit.

12. I think that if my proposals are accepted, the pay and prospects of the present District Surveyors who are all men of approved efficiency will be greatly improved and these really hard working men will be greatly encouraged.

13. My proposals involve an immediate extra charge of about Rs. 140 per mensem but the amount will be well spent.

14. The enclosures received with the above under reply are herewith returned.

(3) Letter No. 438, dated 27th December 1897, from the Deputy Commissioner, Kadur district recommending an increase to the pay of the District Surveyor from Rs. 75 to Rs. 100.

## No. 8660-69—Fl. 852, dated Bangalore, 16th March 1898.

Order thereon.—Government agree with the Superintendent of Revenue Survey and direct that the pay of all the District Surveyors employed in the Revenue Department be regulated in future as follows:—

| | Rs. |
|---|---|
| Pay on first appointment as District Surveyor ... ... | 50 |
| Pay after two years' approved service as District Surveyor ... ... | 60 |
| Pay after five years' approved service as District Surveyor ... ... | 70 |
| Pay after ten years' approved service as District Surveyor ... ... | 80 |

2. These officials will be entitled to draw travelling and leave allowances under the Mysore Service Regulations. A malnad allowance of Rs. 20 each per mensem shall also be given to such of them as are employed in the malnad districts.

3. The salaries of the present Surveyors will be revised accordingly at an additional cost of Rs. 140 per mensem as shown in the margin, with effect from 1st March 1898. The services of the Surveyors employed in the first five districts will be permanently transferred to the Revenue Department as suggested in para 7 of the Survey Superintendent's letter read above, the remaining three District Surveyors being already borne on the strength of the Revenue Department.

Correspondence ending with letter No. 251, dated the 12th February 1898, from the Inspector of Agricultural Banks in Mysore (received through the Deputy Commissioner, Kolar district, with his endorsement No. 517, dated 22nd idem), submitting for orders a memo containing some general questions on the working of Agricultural Banks.

No. 9125-35—Fl. 883, DATED BANGALORE, 24TH MARCH 1898.

ORDER THEREON.—The points submitted for orders and the observations of Government thereon are given below in juxtaposition :—

| *Points submitted for orders.* | *Observations of Government.* |
|---|---|
| A sum of Rs. 66 has been paid to the Agent of the Agricultural Bank at Hongenahalli, Malur taluk, as remuneration for the services he rendered. As per Proceedings No. 4174—Fl. 414 of 11th November 1897, orders have been issued not to pay any remuneration to any of the members. The Inspector would urge again for the consideration of Government the necessity of allowing monthly or half-yearly remuneration to the Agent from the profits, as his work is the heaviest, he being held responsible for the accounts, &c. He cannot be expected to attend to these duties unless he is paid ; because he would otherwise utilize the time to be spent upon the Bank affairs to his advantage. In some Banks, Mutsaddis are appointed to write up the accounts, but even then the work cannot be carried on satisfactorily without proper supervision. In others, the members are not willing to entrust the accounts, &c., to a person who is not a member as he will have very little interest in the prosperity of the Bank and he has absolutely no responsibility. Besides, many of the Banks cannot afford to employ a Mutsaddi on monthly pay, the profits being small. As these Banks are worked on the lines of Agricultural Banks established on the Continent, where the affairs of each Bank are managed by a paid Secretary, it is suggested that the same procedure may be adopted in the case of our Banks also. | **This strikes at the very root of the system and cannot be permitted. Government see no reason to reconsider the orders already passed in the matter.** |
| 2. Under Section 74 of the Articles of Association any loan made to the Bank by Government is recoverable from the members jointly and severally under Section 194 of the Land Revenue Code, but in the case of deposits received from the members themselves or from outsiders, there is no provision as to how the depositors should recover the deposited amount. There is every likelihood of people coming forward to deposit monies in these Banks if there is a ruling that the members jointly and severally are responsible to the depositors for the sums deposited by them. | **Government cannot provide for recovery by summary process of deposits made by private individuals. Nor is it for Government to declare the nature and extent of the liability of the members of the Bank in respect of deposits received by the Bank. This is a matter of contract.** |

| *Points submitted for orders.* | *Observations of Government.* |
|---|---|
| 3. The documents executed in favor of the Hongenahalli Bank were duly examined. No discharged bonds and title-deeds have been secured and kept in the Bank. The Directors explained that owing to the location of the Bank in an out-of-the-way place like Hongenahalli, they are afraid to keep them in their possession. It is requested that a general order may be issued to allow the Agricultural Banks to lodge for safe custody in the Taluk Treasury the discharged bonds and title-deeds, &c., if they wish to do so. | There is no objection to such documents being lodged in Taluk or District Treasuries. |

Letter No. 1034, dated 4th March 1898, from the Deputy Commissioner, Mysore District.

No. 9197-9200—R. F. 31-97, DATED BANGALORE, 26TH MARCH 1898.

ORDER THEREON.—With the above, the Deputy Commissioner submits the Memorandum and Articles of Association of the proposed Agricultural Bank at Sargur in the Heggaddevankote taluk.

2. The Bank is proposed to be established by 14 Members for the benefit of Sargur and 34 other villages in the Heggaddevankote taluk. The Members own 833 acres and 15 guntas of land, of which 72 acres and 35 guntas are inam, the aggregate value thereof being estimated at Rs. 33,857 with a liability of Rs. 3,945.

3. The Members propose to start the Bank with a capital of Rs. 16,000, which the Deputy Commissioner and the Inspector, Agricultural Banks, think might be advanced from Government.

4. Government accordingly sanction an advance not exceeding Rs. 16,000 being made for the Agricultural Bank referred to above, and authorise the Deputy Commissioner to place the said amount for the purpose in the Heggaddevankote Taluk Treasury. Interest must be recovered from the Bank half-yearly up to 30th June and 31st December of each year at 4 per cent per annum on the sums actually borrowed by the Bank.

5. The Memorandum and Articles of Association will be returned to the Deputy Commissioner with a request that he will take steps to get the same duly registered. The existing encumbrances must all be discharged and the documents, &c., connected therewith taken back and properly secured.

8. During the year under report one policy was cancelled as the proposer was found to be in indifferent health before the policy was delivered to him. Four persons resigned their appointments; of these three continue paying their premium. Five persons were removed from service but not debarred from re-entertainment; of these three continue payment of premium. *Vide* Appendix IV.

9. Exclusive of all the policies that have lapsed by death or have been cancelled and those on which payments of premium have been discontinued, there are now on the books of this office 2,063 effective policies assuring in the aggregate Rs. 17,71,669-12-0 and realising monthly premiums of Rs. 6,829-8-0; of these 592 policies are for further insurance, the number of individual lives insured being 1,471.

10. The accounts of the fund for the year under report were audited and found correct by M. R. Ry. M. A. Srinivasachariyar, one of the Examiners in the Comptroller's office and M. R. Ry. C. Kesava Mudaliar, an Accountant in the Examiner's office, and their report has been recorded.

11. There were held during the year four meetings of the Committee to discuss doubtful points in connection with disposal of proposals, &c., and to transact other business.

12. Under the Committee's Proceedings, dated 12th September 1896, arrangements have been made for a valuation of our policies by an actuary in England. The services of Mr. Meikle have been secured for the purpose through Mr. McLauchlan Slater of the Bombay Oriental Life Assurance Company. The necessary statistics required for the purpose have been prepared and forwarded to Mr. McLauchlan Slater for transmission to England.

READ—

Letter No. 789—744, dated 14th February 1898, from the Deputy Commissioner, Chitaldrug District.

No. 9377-80—R. F. 80-97-98, DATED BANGALORE, 29TH MARCH 1898.

ORDER THEREON.—With the above, the Deputy Commissioner submits the Memorandum and Articles of Association in duplicate of the proposed Agricultural Bank at Mallapura in the Chitaldrug taluk.

2. The Bank is proposed to be established by 30 Members for the benefit of Mallapura and 17 other villages in the Chitaldrug taluk. The Members own 1,868 acres and 39 guntas of land, the aggregate value thereof being estimated at Rs. 22,860 with a liability of Rs. 7,791 excluding other debts amounting to Rs. 6,820 or in all Rs. 14,611.

3. The Members propose to start the Bank with a capital of Rs. 20,000, but the Inspector of Agricultural Banks and the Amildar recommend the grant of Rs. 16,000, while the Deputy Commissioner, on the recommendation of the Treasury Assistant Commissioner, thinks that an advance from Government of Rs. 14,000 is sufficient.

4. Government therefore sanction an advance not exceeding Rs. 14,000 being made for the Agricultural Bank referred to above, and authorise the Deputy Commissioner to place the said amount for the purpose in the said Chitaldrug Taluk Treasury. Interest must be recovered from the Bank half-yearly up to 30th June and 31st December of each year at 4 per cent per annum on the sums actually borrowed by the Bank.

5. The Memorandum and Articles of Association will be returned to the Deputy Commissioner with a request that he will take steps to get the same duly registered. The existing encumbrances must all be discharged and the documents, &c., connected therewith taken back and properly secured.

C. SREENIVASIENGAR,
*Secy. to Govt., Gen. & Rev. Depts.*

To—The Deputy Commissioner of the Chitaldrug District, with Articles of Association and Vernacular papers.
The Registrar of Joint Stock Companies.
The Comptroller to the Government.

Letter No. 6055—254, dated 28th January 1898, from the Excise Commissioner in Mysore, submitting for approval draft Rules defining the powers and duties of the several officers of the Excise Department.

No. 8368-77—Ex. 324, DATED BANGALORE, 9TH MARCH 1898.

ORDER THEREON.—The proposed distribution of the Excise work of districts is approved as noted in the margin.

| Officer. | Name of Division. | Districts included in the Division. |
|---|---|---|
| Deputy Excise Commissioner. | Bangalore, with head-quarters at Bangalore. | Bangalore.<br>Kolar.<br>Tumkur. |
| Special Excise Assistant Commissioner. | Mysore, with head-quarters at Mysore. | Mysore.<br>Hassan.<br>Kadur. |
| Excise Assistant Commissioner. | Chitaldrug, with head-quarters at Chitaldrug or Davangere. | Chitaldrug and Shimoga. |

2. Government have carefully considered the question of the powers to be assigned to the several officers of the Department in respect of the appointment and punishment of their subordinate officers, and have come to the conclusion that it is not desirable to disturb the existing orders under which the Excise Commissioner is empowered to make all appointments above Rs. 40 and below Rs. 100; and the Deputy Commissioners of districts, all appointments of and below Rs. 40; all appointments of Rs. 100 and upwards made by the former being subject to the approval of Government. (*Vide* Government Proceedings No. 359-68—Ex. 8, dated 3rd July 1895 and No. 8831-9—1113 of 1892, dated 17th December 1892.)

3. The Divisional Officers, *viz.*, the Deputy Excise Commissioner and the two Excise Assistant Commissioners will be allowed, as regards appointments in their own offices, to exercise the powers of a Deputy Commissioner and an Assistant Commissioner, respectively. They may also recommend to Deputy Commissioners the appointments of Inspectors and last grade Supervisors (40+15). Examiners' and Supervisors' clerks drawing not more than Rs. 12 will be nominated by the Divisional Officers, subject to confirmation by the Deputy Commissioners. The Supervisors will nominate, in their turn, tree-markers and other menial servants, subject to the approval of the Divisional Officers.

4. The Deputy Excise Commissioner will have power to fine all officers subordinate to him up to Rs. 10 and an Excise Assistant Commissioner will likewise have power to fine up to Rs. 5 and a Supervisor may fine tree-markers and menial servants up to Rs. 2, subject in all these cases to an appeal to, or revision by, the Deputy Commissioner of the district.

5. The grant of leave and the making of acting arrangements will also be regulated by the instructions contained in paras 2, 3 and 4 *supra*.

6. Transfers within the district will be made by the Deputy Commissioner, who will generally consult the Divisional Officer. Transfers from one District to another will be made by the Excise Commissioner after consultation with the Deputy Commissioners concerned. Divisional Officers and Deputy Commissioners may recommend such transfers.

7. In regard to the duties of the officers of the Excise Department the following draft Rules submitted by the Excise Commissioner are, with some slight modifications, approved.

The functions of the Divisional Officers will chiefly be the following :—

(1) Inspection of the Government Central Distillery, depôts of all descriptions, arrack and toddy shops, beer taverns, foreign liquor shops, and drug shops.

(2) Regulating the allocation of shops subject to the orders of the District Deputy Commissioner.

(3) Regulating the sources of supply of toddy to shops.

(2) Regulating the allocation of shops subject to the orders of the District Deputy Commissioner.

(3) Regulating the sources of supply of toddy to shops.

(4) Inspection of groves and plantations of toddy-yielding trees, watching the progress of tree-marking and checking and testing a fair percentage of the trees marked for the manufacture of toddy, to see that no illicit tapping is carried on; and examining a fair percentage of tapped trees to see that the right method of tapping is adhered to, and that no over-working, over-tapping or improper or irregular tapping is carried on.

(5) Taking stock of arrack and ganja in depôts and comparing and verifying the same with chellans, passes, depôt accounts and registers in Taluk Cutcherries.

(6) Instructing the subordinate staff in preparing Registers, accounts and statistics neatly and correctly, and in regard to the testing of spirits and mode of using and keeping the scientific instruments and standard measures and weights.

(7) Inspection of spots where illicit distillation and importation of contraband liquors and drugs are suspected to be carried on, and of the fields where ganja hemp is cultivated.

(8) Assisting the District Deputy Commissioner in checking and examining the Excise Registers and accounts kept in District Offices and Treasuries.

(9) Inspection and examination of Excise accounts and registers in Taluk Cutcherries.

(10) Examination of chellan books with farmers and shop-keepers to see that Government dues have been punctually and duly paid.

(11) Ascertaining and reporting the real causes of the increase or decrease of consumption of liquors and drugs in shops.

(12) Scrutinizing, enquiring and ascertaining whether Supervisors and Inspectors have duly performed their inspection work.

(13) Reporting on the progress and results of Tree-tax system in their respective divisions.

(14) Reviewing and passing orders on the diaries of Supervisors and Inspectors.

*Rule* 2. In Government Notifications Nos. 201, dated 21st September 1889, and 13479—R. 1629-92, dated 28th January 1893, it is laid down what Police officers have to exercise the powers conferred on Excise officers by Sections 27, 28 and 29 of the Excise Act, and what classes of officers of the various departments under Government may be appointed to exercise the prescribed functions of Excise officers by Deputy Commissioners of districts under Section 24 of the Excise Act, for the collection of Excise revenue and for the prevention of offences against the said Act. The word "officers" should be substituted for "Inspectors" in clause (2) of para 1 of the above Notification. In Government Notification No. 200, dated 21st September 1889, it is laid down what classes of officers of the various departments under Government have to exercise the powers referred to in Sections 14 and 22 of the Opium Act.

*Rule* 3. In the Excise Commissioner's Circular No. 4383-90—222, dated 8th May 1896, approved in Government Proceedings No. 9500-509—Ex. 286, dated 14th April 1896, the duties and powers of Excise officers in regard to the prevention and detection of offences against the Excise and Opium Acts, and the functions of Amildars and of the various grades of Abkari officers in respect of the collection of Excise revenue are specified. The duties of Supervisors and Inspectors in departmental matters, *viz.*, inspection of depôts and shops of all kinds, toddy groves, &c., are also briefly described.

*Rule* 4. Under the Tree-tax system the additional duties of Supervisors and Inspectors are chiefly the following:—

*Supervisors' Duties.*

(1) Regularly checking and supervising the work of Inspectors and petty officers.

(2) Inspection of groves and plantations of toddy-yielding trees, watching the progress of tree-marking and checking and testing the trees marked for the manufacture of toddy; to cause the marking work to be done without delay, and to prevent and detect illicit tapping and inspecting tapped trees to see that no over-working, over-tapping or improper or irregular tapping is carried on.

(3) Reporting on the progress and results of Tree-tax system in their respective ranges.

(4) To furnish statistics of tree-tax, and to check the demand, collection and balance accounts and chellans; and to see that Abkari khists are punctually paid up.

(5) Maintaining the prescribed registers regularly, and furnishing punctually the requisite statistics and returns to the officers concerned

(6) Reporting expeditiously on the matters referred to them by District Deputy Commissioners and Divisional Officers.

(7) Preventing and detecting offences against Excise laws, and conducting the prosecutions of such offences.

(8) Submitting weekly diaries to Divisional Officers and fortnightly diaries to Deputy Commissioners of Districts through the Amildars concerned.

(9) Complying promptly with the requisitions of Amildars in Abkar matters.

(10) To assist the officers conducting the sales by furnishing the true valuation of shops.

(11) To keep the Amildars informed of the failures of payment of khists and fees and forfeitures and to take steps for their recovery.

(12) To see that licenses are issued to depôts and shops of all descriptions.

(13) To see that counterpart engagements are duly executed by the licensees.

(14) To report disputes regarding toddy trees and sites of shops.

(15) To report irregularities on the part of village officials such as clandestine enjoyment of date trees on the false plea that they are in patta lands.

(16) To report disrepair and disappearance of survey boundary marks in the fields and groves of toddy-yielding trees.

(17) To watch the cutting and removal of dead trees sold for lime and brick kilns.

(18) To watch the proper removal of date leaves whenever authorized for pasture, and mat and rope making from trees in private lands.

(19) To make annual inspections of trees reserved in occupied lands.

(20) To report encroachments on the groves and fields of toddy-yielding trees.

(21) To keep the Amildars, Divisional Officers and District Deputy Commissioners informed of all matters connected with the collection of Excise revenue.

*Inspectors' Duties.*

(1) To receive and forward to the Supervisor applications for tree-tapping licenses.

(2) To mark the trees expeditiously on receipt of licenses from Supervisors.

(3) To help in preparing and to obtain revised or fresh applications with correct details without delay when the original applications received are found incorrect.

(4) To patrol and examine toddy-yielding trees.

(5) To organize and detail for preventive and detective work patrol parties from their petty officers and peons and to supervise them.

(6) To test the yield of any toddy producing trees when they are under observation.

(7) To prevent and detect offences against Excise laws and rules, and to conduct the prosecutions of such offences.

(8) To check consignments of toddy to shops.

(9) To make enquiries and report on matters referred to them by Supervisors.

(10) To keep the Supervisor informed of the work done by them, by weekly diaries, and in urgent matters by separate special reports.

(11) To maintain regularly and correctly the prescribed Registers and furnish the requisite statistics and returns *punctually* to the officers concerned.

(12) To see that Abkari khists are regularly and punctually paid.

(13) To report on the number and description of toddy-yielding trees in lands, on direction of Amildars.

8. A Notification modifying Government Notification No. 13479—R. 1629-92, dated 28th January 1893, by the substitution of "Abkari officers" for "Abkari Inspectors" will be issued and duly published by Government.

9. As regards the submission of the diaries and reports referred to in paras 7 to 11 of the draft Rules appended below*, the Excise Commissioner is requested to report the existing practice, as also whether any changes therein are proposed to be made, in which case he should consult the Deputy Commissioners of districts.

*7. Inspectors and petty officers will send their weekly diaries, &c., to the Supervisors who will submit them with their remarks to the Divisional Officer. If the Supervisors find it necessary to communicate immediately any instructions to Inspectors with reference to their diaries they will do so in the form of a Memorandum thus:—

To
Your diary dated
Column
Explain
Do so and so and the like

8. Supervisors will send their diaries to:—

(a) Divisional Officers bearing on matters referred to in clauses (1) (2) (3) (4) (5) (6) (7) (8) (10) (12) (13) (14) (17) (18) (19) and (21) of Rule 4 above; and

(b) to Deputy Commissioners of districts through the Amildars of the respective taluks bearing on matters referred to in clauses (4) (5) (8) (9) (11) (12) (13) (14) (15) (16) (17) (18) (19) (20) and (21) of Rule 4 *supra*.

9. The Supervisors, as well as Inspectors, will of course, submit to the District Deputy Commissioner, without delay, the requisite reports under the Excise and Opium Acts in regard to the cases taken up, arrests and seizures made, &c.

10. The Divisional Officers' weekly diaries and reports on the results of their inspection work and all departmental matters of routine, will be submitted direct to the Excise Commissioner.

11. Fortnightly diaries or reports in regard to the grant of licenses to arrack vend farmers and to the shops and depôts of all descriptions, transfers of farms and shops, allocation of depôts and shops, disputes about toddy-yielding trees, encroachments on Government groves, collection or remission of Abkari khists, and all similar financial and revenue matters concerning each district, should be separately prepared and sent to the Deputy Commissioner concerned, who will, after his perusal and remarks, forward them to the Excise Commissioner.

## SALE OF ARRACK VEND FARMS FOR 1898-99.

*Notification No.* 8953—*Ex.* 349, *dated Bangalore,* 21*st March* 1898.

It is hereby notified by the Government of Mysore that the exclusive privilege of selling Arrack in the defined tracts specified in the subjoined schedule for the twelve months, beginning with 1st July 1898 and ending with 30th June 1899, will be sold by the respective Deputy Commissioners or by Assistant Commissioners specially authorized by the Deputy Commissioners for the purpose, at the taluk head-quarters in the respective districts, on the dates specified in the said schedule, subject to the conditions hereinafter set forth. If the sales are not completed on those days, they will be continued on the next following days. Should there be no bids for any of the aforesaid tracts singly, the officer conducting the sale may revise the tracts at discretion, clubbing together more than one tract, or selling the tracts by taluks, or, if necessary, reserving special tracts in which there may at present be no shops for disposal afterwards.

2. The exclusive privilege above described will be put up to auction, farm by farm, and each farm put up to auction will be knocked down to the approved highest bidder, subject to formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will, *unless revised by Government, for special reasons*, be tantamount to an acceptance of the bid.

3. Parties intending to bid must attend either in person or by duly authorized agents. The successful bidder must, on the farm being knocked down to him and before the next farm is put up for sale, deposit a sum equal to $\frac{1}{3}$ths of a month's rent; and within fifteen days from the date of confirmation of sale by the Deputy Commissioner, he must deposit such further sum as, with the former deposit, will make up an aggregate sum equal to two months' rent. If he fails to make either of the deposits aforesaid, the deposits already made will be forfeited, and the exclusive privilege will be immediately re-sold or otherwise disposed of as the Deputy Commissioner may direct; and he shall be debarred from bidding again for the same or for any other farm

4. Re-sales effected under para 3 will be at the risk of the defaulting bidder, who will forfeit all gain, and in the event of a loss by the re-sale, will make good the deficiency between the total amount payable by him for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale; and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

5. The purchaser of the exclusive privilege shall sign an agreement binding himself to observe the conditions hereinafter set forth; and the agreement shall be executed within ten days of the expiry of the period of fifteen days above mentioned. If the purchaser fails or refuses to sign the agreement, all deposits already made will be forfeited; and the exclusive privilege will be re-sold at the risk and loss of the first purchaser as set forth in paras 3 and 4, or be otherwise disposed of. In the case of the purchaser's death after confirmation of the sale, it will be binding on his heirs or assigns.

6. The details of consumption of Arrack in the shops of the existing farms and at depôts, the amount of rental of each farm, &c., for several years past are specified in the appended schedule.

7. As soon as the agreement has been executed, the Deputy Commissioner will issue a license in the prescribed form, assigning to the purchaser the exclusive privilege referred to therein, subject to the following conditions :—

(1) The exclusive privilege shall extend only to the sale of Arrack ordinarily of 20° under-proof, and with the special permission of the Deputy Commissioner or other officer authorized by him, to the sale of Arrack of 30° under-proof. But it shall not extend to the sale of double-distilled country spirits and other special liquors of whatever strength manufactured at the Government Central Distillery, Bangalore, and which the Foreign liquor shop-keepers alone are permitted to sell.

(2) The amount for which the privilege has been purchased shall be payable into the local Government Treasuries on printed chellans furnished for the purpose by Government, in equal monthly instalments commencing from 1st July 1898; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, declare, by record in writing, that the license is forfeited, and proceed to re-sell the farm as soon after the last day of the month as may be possible. Provided, however, that instead of re-selling the farm as above, the Deputy Commissioner may, in his discretion, direct the Amildar to break up the defaulting farm into the existing number of shops within it, and to give each separate shop-keeper a license for the rent he agrees to pay, provided the total of such rents is not less than what the defaulting farmer had agreed to pay.

(3) (*a*) The deposit made by the licensee shall be taken in payment of the instalments due in the last two months of the period of the farm. Provided, however, that where the farm is re-sold or broken up under the provisions of sub-clause (2) above, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter, as well as towards the deficits, if any, arising from the re-sale of the farm. The balance of such arrears and deficits, if any, shall be recoverable from the licensee under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

(*b*) Interest at 6 per cent per annum shall be recoverable on all arrears from the date of default, and on deficits from the date of re-sale.

(4) (*a*) The licensee shall purchase Arrack for issue to his shops from the "Madras Consolidated Sugar and Spirit Factories, Limited," who have been appointed manufacturers of Arrack and other country spirits to the State, or from any Bonded Depôt established under the sanction of Government. The rate to be charged by the said manufacturers for Arrack supplied by them, shall be $6\frac{1}{3}$ annas per gallon of 20° under-proof, and proportionate rates for lower strengths in accordance with Casella's rules. The licensee shall sell arrack to the public at Rs. 6-6-0 per gallon of 20° under-proof (*i. e.*, at annas 2 per dram which is equal to $\frac{1}{5}$ part of a gallon), and at proportionate rates for lower strengths.

(*b*) The above rate to be charged by the manufacturers is in addition to excise duty, which shall be prepaid into the local Government Treasury, as per following condition (5), at Rs. $4\frac{3}{4}$ before the removal of Arrack from the Distillery, or from any Bonded Depôt established under the sanction of Government.

(5) The licensee shall pay the above duty into the local Taluk Treasury and obtain a receipt in the prescribed form. On production of such receipt and an indent for the supply of Arrack covered by the receipt, and on payment of the prescribed price of such Arrack to the manufacturers or their agent, or any person appointed by Government in this behalf, the Supervisor or other officer in charge of the Distillery, or the Bonded Depôt-keeper, as the case may be, shall issue the quantity of Arrack equal to the amount of duty shown in the Treasury Officer's receipt, which will be forwarded to the Excise Commissioner's office under the endorsement of the Supervisor, or other officer, or Bonded Depôt-keeper aforesaid, as to the date and hour when the Arrack was issued. The Supervisor or other officer aforesaid shall issue a pass in duplicate in the prescribed form under the rules in force for the transport of the Arrack from the Distillery. The licensee who obtains Arrack from a Bonded Depôt shall pay both the price of Arrack and duty into the local Taluk Treasury.

(6) The licensee in the Bangalore district shall maintain at a place or places within his farm where it may be considered necessary by the Deputy Commissioner, a depôt or depôts to which all Arrack purchased by him shall in the first instance be conveyed in his own casks for verification, &c., of the consignment under the rules in force, before issue to the shop-keepers. The depôts shall at all times be opened to inspection by the Deputy Commissioner or any officer of the Excise Department. No such depôt shall be opened without a license from the Deputy Commissioner in the prescribed form. The licensees in the remaining seven districts will draw their supplies from, and deposit the same for issue to their shops in, the existing Bonded Depôts, the cost of the establishments and rent whereof being borne by the Government contractor for carriage of Arrack to Bonded Depôts.

(7) The Arrack shall be sold as issued from the Distillery, Bonded Depôt, or Farm Depôt, and shall not be adulterated or diluted in any manner in the shops.

(8) The licensee shall keep true accounts of the quantity and strength of the Arrack purchased by him and issued to shop-keepers. The passes issued with the arrack purchased by him shall be subject to examination and check under the Rahadari rules in force or which may be issued by Government from time to time.

(9) The Arrack shall not be sold except in shops duly licensed by the Deputy Commissioner in the prescribed form, and no new shops shall be opened without the previous sanction of the Excise Commissioner.

(10) The Deputy Commissioner may, whenever he thinks fit, direct any shops to be closed, or permit transfers of shops from one place to another.

(11) The licensee shall not, during the term of the license, have any interest in the exclusive privilege of vending toddy in any part of the farm to which the license relates, nor permit any person having interest in the exclusive privilege of vending toddy in any part of the farm, to hold any share or interest in his exclusive privilege of selling Arrack; nor shall he, during the term of his license, without the written permission of the Excise Commissioner, have any interest, direct or indirect, in any Arrack farm in any Districts of the Madras or Bombay Presidency under the British Government or in any other Foreign State or Territory.

(12) The licensee shall be bound to take over any Arrack which may remain as stock in hand belonging to the out-going farmer on the 1st July 1898 in the existing Bonded Depôt in his farm, or in the Farm Depôt, or in his shops, paying to the out-going farmer such compensation for the same as may be fixed by the Excise Commissioner.

(13) The licensee shall be bound by the provisions of the Excise laws and rules in force, and by any additional rules which may from time to time be prescribed under the Excise laws. The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with the prescribed forms of Accounts and permits or passes for the transport of arrack, which forms shall be purchased from the local Excise officers.

(14) The farm shall not be transferable except with the permission of the Excise Commissioner.

(15 Resignations of farms in whole or part will be summarily rejected by the Deputy Commissioner.

8. In case of any breach of the aforesaid conditions or of the license either by the licensee, or with his connivance or privity by any person in his employment, or in the event of the licensee neglecting to open his shops or to carry on the business of his farm with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding the sum of Rs. 50 for every such breach of such conditions or for such neglect, or at the option of the Deputy Commissioner to declare the money deposited with him forfeited and to cancel the license and re-sell the exclusive privilege or to otherwise dispose of it, at the risk of the licensee or to place the farm under the management of Government; and all loss thereby caused, together with all losses accruing to Government in consequence of the licensee's neglect to carry on his business by opening his shops on 1st July 1898, should be made good by the licensee. When a farm is cancelled, the rent for the whole period of the farm shall become due at once. All such amounts of penalties and losses shall be recovered in the same manner as if they were the arrears of land revenue.

9. The imposition of a fine or the forfeiture of deposit or the cancellation of the license under the last preceding condition shall not be held to prevent the prosecution of the licensee or his agents or employes for any offence punishable under the Excise laws or other law for the time being in force.

By Order,

C. SREENIVASIENGAR,

*No.* 8954—*Ex.* 350, *dated* 21*st March* 1898.

SALE OF SEPARATE ARRACK SHOPS FOR 1898-99.

1. Notice is hereby given that the right of selling Arrack in each of the separate shops in the tracts specified in the subjoined schedule, for the twelve months beginning with 1st July 1898, and ending with 30th June 1899, will be put up to public auction on the dates and at the places named in the said schedule, by the Deputy Commissioner or other officer authorized by him.

2. Each bidder at the auction will deposit a sum of Rs. 60 or such other reasonable amount as may be fixed by the officer conducting the sale, previous to bidding. The shops will be knocked down to the approved highest bidder, subject to formal confirmation by the Deputy Commissioner, who will be at liberty to accept or reject the bid at discretion without assigning reasons for the same. Such formal confirmation will unless revised by Government for special reasons, be tantamount to an acceptance of the bid. Parties intending to bid must attend either in person or by duly accredited agents.

3. As soon as the auction is completed, the deposits made by the unsuccessful bidders and not forfeited as hereinafter provided, will be returned to them. As the auction proceeds, the person whose bid is accepted for each shop shall at once deposit a sum equal to $\frac{3}{4}$ths of a months' rent for that shop; and within seven days from the date of confirmation of sale by the Deputy Commissioner, he must deposit such further sum as, with the former deposits, will make up an aggregate sum equal to two month's rent. Should he fail to make either of the deposits aforesaid, the deposits already made will be forfeited, the shop will at once be re-sold or otherwise disposed of under orders of the Deputy Commissioner, and he will be debarred from bidding again for the same or for any other shop.

4. Re-sales effected under para 3 will be at the risk of the defaulting bidder, who will forfeit all gain; and in the event of a loss by re-sale, he will make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the re-sale. In the latter case, the forfeited deposit will be deducted from the loss arising from the re-sale and the remainder, if any, will be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposit be greater than the loss by re-sale, the whole of such deposit will be credited to Government.

5. Persons to whom shops have been knocked down shall, within ten days of the expiry of the period of seven days above mentioned, take out licenses and execute agreements in the prescribed form, on the conditions hereinafter set forth. On the failure of any person to take out licenses or to execute agreements as aforesaid, the shop or shops will be re-sold at the risk of such person, or if the auction hereby notified has already been completed, will be otherwise disposed of at the discretion of the Deputy Commissioner. In the case of the purchaser's death after confirmation of the sale, it will be binding on his heirs or assigns.

6. The amount of rental, the consumption of each shop, &c., for several years past are specified in the appended schedule.

7. The license to be taken out under para 5 above, shall be subject to the following conditions, namely:—

(1) The privilege conferred by the license, extends only to the sale of Arrack of the strength of 20° under-proof. But it shall not extend to the sale of double-distilled country spirits and other special liquors of whatever strength manufactured at the Government Central Distillery, Bangalore, and which the foreign liquor shop-keepers alone are permitted to sell.

(2) (*a*) The amount for which the privilege has been purchased shall be payable into the local Government Treasury in equal monthly instalments commencing from July 1898; each instalment shall be regarded as the rent for the month in respect of which it is payable. Each month's rent shall be payable on or before the 20th of the same month. If default is made, the Amildar may, with the sanction of the Deputy Commissioner, declare, by record in writing, that the lease is forfeited

and proceed to re-sell the shops as soon after the last day of the month as may be possible. The deposit made by the licensee shall be taken in payment of the instalments due in the last two months of the period of the lease. Provided, however, that when the shops are re-sold, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter, as well as towards the deficits, if any, arising from the re-sale of the shops. The balance of such arrears and deficits, if any, shall be recoverable from the licensee under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

(*b*) Interest at 6 per cent per annum shall be recoverable on all arrears from the date of default and on deficits from the date of re-sale.

(3) The licensee shall purchase the arrack to be sold in his shop from the "Madras Consolidated Sugar and Spirit Factories Limited" who have been appointed manufacturers of Arrack and other country spirits to the State, at the rate of $6\frac{1}{2}$ annas per gallon of 20° under-proof delivered at the Distillery, or from a Bonded Depot established under the sanction of Government. The Arrack shall be sold to the public by the licensee at Rs. 6-6-0 per gallon of 20° under-proof, (*i. e.*, at annas 2 per dram which is equal to $\frac{1}{4}$ part of a gallon).

(4) The licensee of every shop in the towns of Bangalore and Mysore shall pay a registration fee under the Municipal Regulation, at the rate of Rs. 180 per annum in advance for the period of the license for his shop; and he shall pay also a license fee of 4 annas per gallon on all Arrack sold by him in excess of 55 gallons a month in each.

(5) The above rate to be charged by the manufacturers and the above fee are in addition to the Excise duty which shall be prepaid as per following condition (6), at the prescribed rate of Rs. $4\frac{3}{4}$ per gallon of 20° under-proof, before the removal of the arrack from the Bonded Depot established under the sanction of Government.

(6) The licensee shall pay the above duty and price to a special shroff appointed in this behalf at the cost of Government and located at the Taluk Cutcherry to receive such duty and price daily, including Sundays and holidays, and shall obtain a receipt in the prescribed printed form. On production of such receipt and an indent for the supply of the Arrack covered by the receipt, the Bonded Depôt-keeper shall issue the quantity of Arrack equal to the amount of duty shown in the said receipt which will be forwarded to the Excise Commissioner's office under the endorsement of the Bonded Depot-keeper aforesaid, as to the date and hour when the arrack was issued. The Depot-keeper aforesaid shall issue a pass in the prescribed form for the transport of arrack from the Bonded Depot.

(7) The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with the printed forms of accounts and permits or passes for transport of Arrack, which forms shall be purchased from local Excise Officers.

(8) Resignations of shops in whole or part will be summarily rejected by the Deputy Commissioner.

(9) The licensee shall be bound by the rules in force, and which may be issued from time to time by Government.

(10) The remaining terms and conditions shall be as set forth in the prescribed license.

8. In case of any breach of the above conditions either by the licensee, or with his connivance and privity, by any person in his employment, or in the event

of the licensee neglecting to open his shop, or to carry on his business with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding Rs. 10 for every such breach or for such neglect, or, at the option of the Deputy Commissioner, to declare the money deposited with him forfeited, and to cancel the license and to re-sell the shop or to otherwise dispose of it at the risk of the licensee; and all loss thereby caused, together with the loss accruing to Government in consequence of the licensee not carrying on his business by opening his shop on 1st July 1898, shall be made good by him. When a shop is cancelled, the rent for the whole period of the shop shall become due at once, which shall be recovered together with all losses as if they were arrears of land revenue.

9. The penalties laid down in the last preceding clause shall not exempt the licensee or his employés from prosecution for any offence committed against the Excise laws or other law in force.

By Order,
C. SREENIVASIENGAR,
*Secy. to Govt., Gen. & Rev. Depts.*

and proceed to re-sell the shops as soon after the last day of the month as may be possible. The deposit made by the licensee shall be taken in payment of the instalments due in the last two months of the period of the lease. Provided, however, that when the shops are re-sold, the deposit shall, at the discretion of the Deputy Commissioner, be either forfeited or be appropriated towards the arrears due by the defaulter, as well as towards the deficits, if any, arising from the re-sale of the shops. The balance of such arrears and deficits, if any, shall be recoverable from the licensee under the rules in force for the recovery of arrears of land revenue. No remission or abatement of the rent or compensation shall, on any account whatever, be claimable by the licensee.

(*b*) Interest at 6 per cent per annum shall be recoverable on all arrears from the date of default and on deficits from the date of re-sale.

(3) The licensee shall purchase the arrack to be sold in his shop from the "Madras Consolidated Sugar and Spirit Factories Limited" who have been appointed manufacturers of Arrack and other country spirits to the State, at the rate of 6½ annas per gallon of 20° under-proof delivered at the Distillery, or from a Bonded Depot established under the sanction of Government. The Arrack shall be sold to the public by the licensee at Rs. 6-6-0 per gallon of 20° under-proof, (*i. e.*, at annas 2 per dram which is equal to $\frac{1}{64}$ part of a gallon).

(4) The licensee of every shop in the towns of Bangalore and Mysore shall pay a registration fee under the Municipal Regulation, at the rate of Rs. 180 per annum in advance for the period of the license for his shop; and he shall pay also a license fee of 4 annas per gallon on all Arrack sold by him in excess of 55 gallons a month in each.

(5) The above rate to be charged by the manufacturers and the above fee are in addition to the Excise duty which shall be prepaid as per following condition (6), at the prescribed rate of Rs. 4¾ per gallon of 20° under-proof, before the removal of the arrack from the Bonded Depot established under the sanction of Government.

(6) The licensee shall pay the above duty and price to a special shroff appointed in this behalf at the cost of Government and located at the Taluk Cutcherry to receive such duty and price daily, including Sundays and holidays, and shall obtain a receipt in the prescribed printed form. On production of such receipt and an indent for the supply of the Arrack covered by the receipt, the Bonded Depôt-keeper shall issue the quantity of Arrack equal to the amount of duty shown in the said receipt which will be forwarded to the Excise Commissioner's office under the endorsement of the Bonded Depot-keeper aforesaid, as to the date and hour when the arrack was issued. The Depot-keeper aforesaid shall issue a pass in the prescribed form for the transport of arrack from the Bonded Depot.

(7) The licensee shall use such measures as may from time to time be prescribed by Government, and provide himself with the printed forms of accounts and permits or passes for transport of Arrack, which forms shall be purchased from local Excise Officers.

(8) Resignations of shops in whole or part will be summarily rejected by the Deputy Commissioner.

(9) The licensee shall be bound by the rules in force, and which may be issued from time to time by Government.

(10) The remaining terms and conditions shall be as set forth in the prescribed license.

8. In case of any breach of the above conditions either by the licensee, or with his connivance and privity, by any person in his employment, or in the event

of the licensee neglecting to open his shop, or to carry on his business with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding Rs. 10 for every such breach or for such neglect, or, at the option of the Deputy Commissioner, to declare the money deposited with him forfeited, and to cancel the license and to re-sell the shop or to otherwise dispose of it at the risk of the licensee; and all loss thereby caused, together with the loss accruing to Government in consequence of the licensee not carrying on his business by opening his shop on 1st July 1898, shall be made good by him. When a shop is cancelled, the rent for the whole period of the shop shall become due at once, which shall be recovered together with all losses as if they were arrears of land revenue.

9. The penalties laid down in the last preceding clause shall not exempt the licensee or his employés from prosecution for any offence committed against the Excise laws or other law in force.

To—The Excise Commissioner in Mysore.

---

No. 8313-22—Ex. 333, dated Bangalore, 14th March 1898.

Order.—The Excise Commissioner brings to the notice of Government that in one taluk almost all the markers required for Excise work were selected from one particular caste and considers that such enlistment is not very favorable for the proper performance of public duties. The Government entirely concur in the view taken by the Excise Commissioner. In this connection it is needless to remark that although all classes or castes are alike eligible to hold offices under Government provided they have the necessary educational and other qualifications, yet it is desirable that the Excise Commissioner and Deputy Commissioners of districts (Excise Branch) should be careful that the subordinate appointments in the Excise Department are not monopolized by the members of a few influential families. Endeavour should always be made in the distribution of such appointments to maintain a fair proportion of the different classes so as to avoid undue preponderance of any particular class or caste.

To enable the Government to see that due effect is given to this order, the Comptroller is requested to submit to Government annually, the schedules of the Excise establishments as they are received by him, for scrutiny in the Government Secretariat.

The following letter No 3936—231, dated the 18th February 1898, from the Conservator of Forests in Mysore—

I have the honor to submit for the information of Government, statements showing the quantities of sandalwood sold during and after the auction sales with the rates obtained for each description of sandalwood as compared with those secured in the previous year.

2. It will be observed that the results of this year's sales both in regard to quantity disposed of and rates secured are more favorable than those of the year previous notwithstanding the general depression of trade in Bombay consequent on the prevalence of the plague and cholera and absence of demand from China where an inferior description of sandal (probably *Santalum latifolium*) is being introduced from Australia. The total realizations from the sale of 1,579$\frac{1}{10}$ tons of all classes of sandalwood amounted to Rs. 5,35,328 against the budget estimate of Rs. 7,36,100 for 2,000 tons for the current official year. There is a stock of about 527$\frac{2}{3}$ tons of prepared wood still left unsold at the several kotis representing a value of about Rs. 2,05,000 calculated at the mean average obtained for the year.

3. The orders of Government in Proceedings No. 10579—Ft. F. 31 95, dated 28th May 1897, sanctioning the introduction of revised classification into the remaining six kotis could not be fully carried out owing to a large stock having already been prepared and assorted according to the old classification. But in the Tirthahalli koti where the stock was small and the Daroga, who was previously on special duty with Mr. Muthappa, was conversant with the revised classification, the new system was introduced with favorable results. Steps have been taken to introduce the new classification into the other kotics during the current official year except as regards the portion of old stock prepared under the old system which will have to be disposed of as it is.

4. Sales opened briskly at Tirthahalli on the 17th November where the bulk of the stock was sold at an average of over Rs. 400 per ton.

At the other kotis in the Shimoga district in which the wood was assorted under the old system, competition was not keen, whilst at Chikmagalur, where I was present at the auction, there was scarcely any. It revived at Hassan owing chiefly to good preparation and the presence of a local buyer and the whole stock in that koti (250$\frac{5}{8}$ tons) was disposed of at an average of Rs. 384 per ton.

The attendance and bidding at Bangalore and Seringapatam were poor and but little better at Hunsur, buyers for the European market evidently holding back in the hope of our calling for tenders and accepting lower rates than the minima fixed for the auction sales which, on the contrary I raised by 5 per cent for the whole of a class and 10 per cent for selected lots.

5. On the whole 1,242$\frac{1}{4}$ tons were sold by auction for Rs 4,69,834 or an average of Rs. 378 per ton and 136$\frac{3}{10}$ tons were subsequently disposed of by private bargain for Rs. 65,494, or an average of Rs. 479 per ton.

The average per ton on the aggregate sales is Rs. 388 compared with Rs. 353 last year which may be regarded as satisfactory.

6. I have little doubt that had not the plague increased in Bombay utterly paralyzing local trade whilst high exchange and freights injuriously affected the demand for Europe and America, the whole of the stock would have been disposed of at favorable rates. Even now should exchange fall, of which I am not sanguine, I may be able to effect further sales and work up to the budget estimate under this head. Failing this, the short revenue is fully represented by the unsold stock and I feel sure the Government have only to adhere to the policy of not pushing sales nor accepting any considerable reduction of rates to secure good results when the temporary causes affecting the market at present have passed away.

On the whole, whilst I was anxious to clear our kotis of the old stock so as to introduce the new classification (which is popular) throughout, during the current year, I do not regret the short sales as I am inclined to think the market was overstocked whilst in some districts, *e. g.*, Bangalore, we may have been over-felling.

No. 8528—Ft. F. 31-95, dated Bangalore, 14th March 1898.

Order thereon.—Recorded.

2. The total realizations of the year including the sales of sandalwood effected after the auction sales amounted to Rs. 5,35,328 for a quantity of 1,379$\frac{1}{10}$ tons against the budget estimate of Rs. 7,36,000 for 2,006 tons and against Rs. 4,53,811 for a quantity of 1,286$\frac{3}{4}$ tons in 1896-97. The stock of prepared wood still left unsold at the several kotis is reported to be 527$\frac{2}{5}$ tons representing a value of Rs. 2,05,000 calculated at the mean average obtained for the year. The Government note with satisfaction that notwithstanding the general depression of trade in Bombay owing to the prevalence of the Bubonic Plague and also to the absence of demand from China where an inferior description of sandal is reported to have been introduced from Australia, the results of this year's sales are more favorable than those of the previous year, the aggregate average price obtained per ton being Rs. 388 as against Rs. 353.

3. It is hoped that the revised classification will be introduced into all the kotis during the next year.

The following letter No. 3052—168, dated the 21st December 1897, from the Conservator of Forests in Mysore.

I have the honor to submit three copies of a working plan of the Muthodi Forest in the Kadur district for the information of and ratification by Government. Copies of the map illustrating the report wil follow.

2. Although the data on which fellings will be based are naturally somewhat incomplete and it is doubtful if the prescriptions can be fully worked up to owing chiefly to slack demand and shortness of labor, the preparation and prescription of the working plan mark an important step in the progress of Forestry in Mysorein the direction of regulating the supply by the production and not by the demand or haphazard.

3. It will be observed that I have been very careful to restrict the fellings so that a sustained yield may be confidently relied on, and if we can only secure natural regeneration of the better and sale for the inferior descriptions, the Forest under proper management should prove of permanent and increasing value as years go by.

4. The settlement of Kagemanigni and enumeration of Tegurgudda Forests referred to in para 11 of my Note are in progress and when completed they, with Muthodi, will form a compact working circle of about 50 square miles.

(1) Letter No. 867, dated 5th March 1898, from the Deputy Commissioner, Hassan district.

In submitting herewith a file of vernacular papers ending with Arkalgud Taluk Amildar's report No. 449, dated 22nd ultimo, regarding the depredation caused by the elephants which had strayed into Musavattur and other villages in the Mallipatna hobli of the Arkalgud taluk and the villages of Hounavalli and Kongalale in the Alur sub-taluk, I have the honor to state that I have reported this matter with a view to a reference being made to the Coorg authorities and the Khedda Department to take steps to prevent a recurrence. These elephants have not only destroyed raiyats' crops but a man was severely wounded in the Alur sub-taluk and subsequently died from the injuries he sustained.

(2) Letter No. 4294—260, dated the 17th March 1898, from the Conservator of Forests in Mysore.

In reply to your No. 3494—Ft. F. 10-97 of 12th instant (vernacular enclosures returned) I have the honor to remark that the information with regard to the depredations by elephants appears somewhat vague and neither the Amildar nor Deputy Amildar would appear to have taken much trouble to sift it in the directions indicated by the Deputy Commissioner.

2. In his report of 11th February the Mallipatna shekdar states that there had been no other depredations previously or subsequently and that the elephants came from and returned to Coorg; and in his report of 30th January, the Deputy Amildar of Alur also states that they came from Kodalipet.

3. There will of course always be occasional depredations by wild elephants in taluks like Arkalgud and Manjarabad, but the villagers have the remedy in their own hands as they may shoot them in defence of their crops or the Deputy Commissioner may authorize professional shikaries to do so for them.

4. This is, I believe, the first report of the kind received from the Hassan district of recent years, and I see no ground for the adoption of any special measures by Government beyond intimating the matter to Coorg and instructing the Deputy Commissioner to authorize the shooting of any elephant doing damage to crops or endangering human life. There are many European sportsmen in Bangalore who will be only too glad to go and have a shot at them if deemed necessary.

No. 9147-8—Ft. F. 10-97, dated Bangalore, 24th March 1898.

Order thereon.—The Deputy Commissioner's attention is invited to para 3 of the Conservator's letter read above and to the rules relating to the shooting of wild elephants.

2. The Chief Commissioner of Coorg will however be addressed on the subject.

# PETITION.

*Proceedings of the Government of Mysore.*

READ :—

Petition No. 1599, dated 24th November 1896, from Subba Jois of Dodballapur, praying for the re-classification of his wet land Survey No. 38 of Mutsandra village, Dodballapur taluk, on the ground that the channel which supplied water to it from the Sivapur tank had been closed by the Hindupur Railway embankment.

2. Letter No. 933, dated 18th January 1898, from the Deputy Commissioner, Bangalore district, reporting on the above.

3. Records of the case.

On the 28th January 1892, the petitioner applied to the Amildar of Dodballapur taluk for the grant of wet land Survey No. 38 of Mutsandra village measuring 3 acres and 24 guntas and assessed at Rs. 21. The Amildar granted the land to the applicant without sale after obtaining from him a muchalika binding himself to pay the assessment on the land whether cultivated or not. In September 1893, the petitioner complained to the Deputy Commissioner that the channel supplying water to the land from the Sivapur tank had been closed by the Hindupur Railway embankment and prayed that the land might be re-classified and dry rates levied. The Amildar to whom the petition was referred in the usual course reported in November 1893 to the Divisional Officer that the railway embankment had obstructed the water-supply to 6 acres and 29 guntas of wet land (including the petitioners) assessed at Rs. 40 and that the re-classification of these lands was desirable. The Divisional Officer directed that the matter should be brought up at the jamabandi. In June 1894, the Jamabandi Officer directed that the question of re-classification should lie over till it was ascertained that the land could not be irrigated by means of a tunnel through the embankment. When the Divisional Officer requested the Deputy Commissioner to make a reference on the subject to the Executive Engineer, information on certain points, most of which was, however, forthcoming in the records, was called for. In August 1895, the Divisional Officer reported that under the terms of the muchalika, the petitioner was not entitled to have his wet land re-classified. The Deputy Commissioner held that the muchalika could not be so construed, that it "was taken and given incautiously" and that wet assessment could not be levied when the source of irrigation failed.

In reply to a reference made by the Deputy Commissioner to the Executive Engineer the latter gave it as his opinion that it would be expensive to supply water to the petitioner's land and recommended the re-classification of the land. The Divisional Officer to whom the Executive Engineer's letter was sent in March 1896, directed the Amildar in September 1896, to bring up the matter at the jamabandi. As the petitioner's land Survey No. 38 was attached in October 1896 for revenue arrears, he appealed to Government, who called for an early report and directed the stay of further proceedings. After the lapse of more than a year, the Deputy Commissioner has submitted a report with records without any explanation for this long delay.

No. 8356-64—PET. 1110, DATED BANGALORE, 9TH MARCH 1898.

ORDER THEREON.—The first thing to be done is to re-classify the land so that the assessment, which is deemed proper after the railway embankment has affected the supply of water, may be fixed. This must be at once carried out by the Deputy Commissioner in consultation with the Superintendent of Revenue Survey. But before this is done, an expression of the Chief Engineer's opinion should be obtained regarding the final and permanent loss of the water-supply to these lands.

2. The muchalika taken from Subba Jois is in terms very objectionable. The Land Revenue Rules do not provide for any such special agreement and the Amildar ought not to have taken the liberty of departing from the procedure laid down by general rules, except under the sanction of the Deputy Commissioner. The muchalika should, under the circumstances, receive no further force than one taken under the general operation of the Revenue Rules. The source of water-supply having ceased, the petitioner is entitled, together with the others who are similarly situated, to a modification of the rates. The Amildar should be warned not to introduce any special conditions without sufficient sanction.

3. When the rates are modified, the difference between the old and the revised assessment should be remitted and the balance collected.

4. The long period during which this unsatisfactory correspondence has dragged on indicates the necessity for pointing out to the District authorities that such proceedings should be conducted with promptitude and in a methodical manner, both of which are altogether absent from the proceedings now under disposal.

READ THE FOLLOWING PAPERS:—

(1) Petition No. 443, dated 5th August 1897, from Toriappa of Jagalur kasba, appealing against the order of the Deputy Commissioner, Chitaldrug district, declining to allow the petitioner to irrigate his garden land Survey No. 332 from Jagalur tank.

(2) Letter No. 493—464, dated 27th November 1897, from the Deputy Commissioner, Chitaldrug district:—

In reply to your Official Memorandum No. Pet.—356, dated 28th August last, forwarding a petition from Toriappa of kasba Jagalur, appealing against my order No. 37 of the 12th July 1897, declining to allow him to irrigate his land Survey No. 332 by a channel direct from the sluice of Jagalur kasba tank, for submission of the entire proceedings in the case together with a full report of the facts of the case and on the points urged in the petition, I have the honor to report as follows:—

1. On the 26th February 1894, Toriappa presented a petition to the Amildar representing that the kapile well in his land Survey No. 332 had collapsed and that as the completion of the new well which he had commenced to excavate would take 2½ months, permission might be given him to irrigate his garden land with water from the tank till the completion of his new well and offered to pay temporary water cess.

2. In order to ascertain the usage prevailing in the locality, the Amildar examined three persons who deposed as follows:—

"As the kapile well in Toriappa's bagayat land has collapsed, permission may be given to let water from the village tank flow into his land three or four times till the well is restored It has been usual to so utiliza tank water freely with the permission of the authorities. It is bad in principle to allow water from the tank on payment of water cess because every body may ask for water on that condition. It is therefore advisable to let him have the use of tank water temporarily with a warning that it will be stopped if the kapile well be not completed early."

3. The Amildar in his report No. 458 of the 25th April 1894, brought to the notice of the Deputy Commissioner that some garden owners were using water from the tank unauthorizedly for the irrigation of their gardens and requested that the Ootar patrike might be obtained for him from the Survey Superintendent's office to determine whether such garden owners were entitled to the use of tank water. A reference was accordingly made to the Survey Superintendent for the Ootar patrike.

4. The Ootar patrike received with the Survey Superintendent's No. 2517, dated 20th May 1895, states as follows:—

"There is a well in Survey No. 332 bagayat land. The well irrigates only this number Moreover water from tank Survey No. 103 flows through a channel into this land."

Thus the matter stood.

5. On the 3rd November 1896, the patel of Jagalur kasba reported to the Amildar as follows:—

"Last night Tippegundi Toriappa and his brother Gurusiddappa have let water into their land No. 332 from the tank by tampering with the boards put across the sluice. Last year when the well in his garden had collapsed, he obtained permission from the Amildar for the free use of tank water till the well was restored. He did not use tank water after his well was restored." The following is the *mahazar* that I have got drawn up in the matter:—

"Toriappa has used tank water for his land. The water of this tank is always used only by the owners of wet lands and not by owners of bagayat lands. It has been usual however to permit garden owners to irrigate their gardens with tank water when wells in the gardens get out of order. At present there is very little water in the tank; and it is feared that the present supply is hardly sufficient for men and cattle during this summer season."

6. In order to ascertain the local usage, the Amildar examined several persons chiefly bagayat owners and their testimony goes to show that while gardens are irrigated by kapile wells, wet lands are irrigated by the tank water; and that when wells in the gardens fail, permission is granted for the use of tank water once in a week or once in a fortnight. In accordance with the local usage thus ascertained, the Amildar refused * to allow Toriappa to use tank water in addition to the water available from kapile wells.

* dated 7th May 1897.

7. Toriappa appealed to me against the above order of the Amildar. As the appellant stated before me that the kapile well in his garden had collapsed, I thought it proper to inspect the land personally to verify this statement and then pass orders in the appeal. On personal inspection, I found that the appellant's garden had two kapile wells both in working order and declined* to interfere with the order passed by the Amildar in the case.

* dated 12th July 1897.

8. It is against this order that Toriappa has now appealed.

9. The vernacular papers in the case are herewith submitted and the appellant's petition is re-transmitted.

(3) Letter No. 7359—P. 970, dated 4th February 1898, from the Secretary to Government, General and Revenue Departments, to the Superintendent of Revenue Survey :—

In forwarding herewith Petition No. 443,* dated 5th August 1897, with its one enclosure, received from Toriappa of kasba Jagalur, regarding water-supply to petitioner's garden land Survey No. 332 and a copy of the Chitaldrug Deputy Commissioner's report thereon, No. 493—464, dated 27th November 1897, together with the vernacular records, I am directed to request the favor of your views in the matter which is one of general interest and importance.

* to be obligingly returned.

2. I am to observe that the contention of the petitioner, is chiefly that as he pays a very much higher rate than the simple wet landholders, and that as in the classification the source of the supply from the tank was taken into consideration, he must be entitled to take water in preference to the latter so long as water is available in the tank irrespectively of the supply he may obtain from his well. The Deputy Commissioner has correctly shown that if this view is conceded, the result will be ruinous to wet lands. Some regulation is, under the circumstances, desirable and a decision on the basis of usage does not seem to be open to any objection. Under para 4 of Rule XLIII, rights to irrigation are excluded from Amildar's jurisdiction. The Deputy Commissioner's direction to the contrary and allowing the Amildar to decide the claim seems opposed to this rule.

(4) Letter No. 595, dated 3rd March 1898, from the Superintendent of Revenue Survey :—

I have the honor to report as follows in reply to your letter No. 7333—P. 970, dated 4th February 1898, the subject being the water-supply to Survey No. 332 of Jagalur and, arising from that particular case, the general question of some regulation, regarding the use of tank water by garden owners, based on local usage.

2. In the particular case now in point, Survey No. 332 was assessed on the consideration that the whole survey number, 3 acres and 21 guntas, was under irrigation, more or less, by means of a pat or channel, drawn from the tank, in addition to well irrigation. Of course when the classification was being carried out, and the classer found a channel from the tank, in use by the owner of Survey No. 332, he entered the land as tank irrigated and it was assessed accordingly. The classer could not tell, the channel being there, whether the water was used only now and again or regularly. It is evident that tank water *was* used. From the "Mahazar" alluded to by the Deputy Commissioner at para 5 of his letter and from the examination of certain persons by the Amildar, the custom appears to have been for the garden owners to use tank water when the wells failed, and then tank water was allowed once in a week or once in a fortnight. It is evident from this that in every garden the classers would have found a pat or channel led from the tank and would have consequently classed the land as "Patshtai" or tank irrigated. As a matter of fact this is exactly what the classers did and almost all the gardens in Jagalur were classed and assessed accordingly.

3. In my opinion the petitioner Toriappa is entitled to use the tank water according to local usage, that is, in the manner and to the extent to which he used it at time of classification. The Deputy Commissioner, although not the Amildar, had authority, I think, to decline to grant tank water to the appellant, on the ground that appellant's kapile wells were in working order and that permission to use tank water was, by custom, allowed only when the wells failed. Of course I take it for granted that the Deputy Commissioner has thoroughly satisfied himself as to what the local usage really was. The occupants of wet lands would as a matter of course give evidence adverse to the interests of the garden owners, but the Amildar seems to have examined garden owners as well.

4. I do not think it possible to frame any regulation on a question like the one under discussion. Local usage varies so much that no set of rules to meet all cases could be framed. It will be sufficient to lay down for the guidance of Deputy Commissioners, by whom cases involving rights to irrigation are, under Land Revenue Rule XLIII (4), cognizable, that in all disputes, local usage should be the guide. For the guidance of Revenue Officers generally it might be pointed out that in the case of applications on the part of garden owners hitherto not using tank water, for "Nirsarti" or water rate, which are by no means uncommon, it is not necessarily incumbent on Government to grant the application, if, by granting it, the supply to the wet fields would be unfavorably affected.

5. The vernacular correspondence to the above is herewith returned.

No. 8856-64—Pet. 1183, DATED BANGALORE, 19TH MARCH 1898.

ORDER THEREON.—Government generally concur in the views expressed by the Survey Superintendent, and the Deputy Commissioners will regulate their procedure in accordance therewith. It is pointed out that all irrigational matters come within the special cognizance of District Officers under para 4 of Rule XLIII of the Land Revenue Rules.

No. 9136—P. F. 68-97, DATED BANGALORE, 24TH MARCH 1898.

ORDER THEREON.—The orders appealed against cannot be supported.

2. The relief sought for is the recovery of the right of shanbhog which is now in the possession of the 2nd defendant who obtained it in 1869. Both the Deputy Commissioner and his Assistant were wrong in viewing the suit as one for the redemption of a mortgage. The mortgagee had no possession and no relief could possibly be obtained from him or his heirs. The 1st and 2nd defendants who are father and son set up an independent right of their own and the possession based upon that right which was adverse to the plaintiff, admittedly began in 1869. There can thus be no doubt that the cause of action as against the defendants (1) and (2) began in 1869 and as the suit was brought in 1892, that is to say, more than 23 years after such cause accrued, it is clearly barred.

3. It is not denied that the plaintiff's father was alive in 1869. The plaintiff states in the plaint that his father died in Bahudhanya 1878-79 and therefore the period of limitation which began to run from 1869 could not be suspended in favor of the plaintiff.

4. It has been held that there was fraud though nothing is said of such fraud in the plaint. The facts constituting such fraud have not been set out. At the most it is said that the 1st defendant falsely represented to the mortgagee Raghavendra Rao that he was the mortgagor's representative. But the proceedings adopted at the time are filed with the record and they show that everything was publicly done and was above board. *The Amildar of the time held a full investigation* into the matter and he issued a proclamation calling upon all claimants to bring forward their objections to the registry of the 2nd defendant. No one came forward. On the other hand plaintiff's father executed a karar admitting the claim of the defendants and agreeing to their redeeming the mortgage from Raghavendra Rao. This is Exhibit 7. The Assistant Commissioner states that this is a suspicious document. There are no valid reasons to think so. The Amildar did not deal with this matter on his own responsibility. He reported the whole affair to the Deputy Commissioner (*vide* original report in the record) and his order was obtained. It is unreasonable to hold that there was no redemption of the mortgage at all, for, if this hypothesis were true, Raghavendra Rao would not have been a consenting party to the transfer of possession. No. 7 is proved by Seshagiriappa, son of Achappa, who wrote it. There is no reason to impugn this document. The publicity with which such transactions are conducted in a Taluk Cutcherry, coupled with the facts that a proclamation calling upon claimants *was issued and that the Exhibit No. 7 which has been proved, was executed* by the plaintiff's father, shows clearly that this transfer of possession had come to the knowledge of the plaintiff's father. The injury resulting from fraud was thus within the knowledge of the plaintiff's father through whom the plaintiff claims. He cannot therefore obtain an extension of the statutory period of limitation under Section 18 of the Limitation Act. On the whole, therefore, there seems to be no reason to accord any exceptional treatment to this suit which is governed by the ordinary rule of limitation. The cause of action first accrued in 1869 and the suit which was filed in 1892 must be held barred and dismissed.

1. Petition No. 2903, dated 22nd March 1897, from Venkatadasappa of Agile village in the Hassan taluk, appealing against the order of the Inam Superintendent, declining to interfere with the alienation by sale of certain lands alleged by the petitioner to be inam lands attached to the carpenter's service in Agile village.

2. Letter No. 89, dated 24th April 1897, from the Superintendent of Inam Settlements in Mysore, reporting, with reference to the above, that the service inam lands were resumed and charged with full assessment by the Revenue authorities in 1895.

3. Letter No. 798, dated 15th February 1898, from the Deputy Commissioner, Hassan District—

(1) With reference to Government Official Memorandum No. Pet. 1622, dated 1st May 1897, forwarding for report the petition of Venkatadasappa of Agile village, Hassan taluk, complaining of the alienation of service inam lands attached to the service of carpenter in Agile village, I have the honor to report that Doddachari, holder of carpenter's service inam lands Nos. 80, 94 and 109 of Agile village, prayed on 2nd February 1893 that the quit-rent levied on all the inam lands may be imposed upon one field and the rest treated as kandayam lands. On the Amildar's report, necessary enquiries regarding possession and the nature of service rendered were ordered to be instituted. The Amildar, in submitting the statements of the applicant with those of the patel and shanbhog, reported that the carpenter's service for which the inam was granted was not being performed gratis, the carpenter (applicant) recovering from villagers his wages for the work done by him.

(2) Thereupon the Inam Superintendent was addressed as per Government Proceedings No. 8828-9—216-92, dated 16th December 1892, to resume the inam lands assessing the same fully. This having been done, Doddachari was treated as ordinary kandayamdar.

(3) One Sannegauda of Agile having complained in the matter, the late Mr. Krishnaswamaiengar declined to interfere observing that "the land ceased to be inam when it was fully assessed and registered in the name of the man as ordinary occupancy and that he is at liberty to dispose of it."

* Ending with Hassan Amildar's No. 1006—1011, dated 3rd February 1898.

(4) The vernacular * records connected therewith are submitted for perusal and Kind return.

No. 9383-92—PET. 1220, DATED BANGALORE, 29TH MARCH 1898.

ORDER THEREON.—There are no grounds to interfere with the action of the Deputy Commissioner or the Inam Superintendent and this appeal is accordingly rejected.

2. The transfer of land from inam to Government ought to have been reported for the information of Government.

# PUBLIC WORKS.

*Proceedings of the Government of Mysore,*

READ THE FOLLOWING :—

(1) Docket Camp No. 637 of 22nd February 1898, from Superintending Engineer, Eastern Circle, submitting a revised project amounting to Rs. 3,27,254 for constructing a new reservoir across the Garudachella river near Mavatur in the Tumkur taluk, and requesting sanction thereto, he having carefully checked the provision made for bund work during his recent inspection of the tank.

(2) Public Works Secretary's Note of 5th March 1898.

"I submit for sanction, the accompanying revised project for the construction of a new tank across the Garudachella stream near Mavatur, Tumkur taluk, amounting to Rs. 3,27,254 or Rs. 45,326 in excess of the original project, sanctioned by Government.

II. The necessity for the above excess is explained in the Reports and Comparative Statement, from which it will be seen that most of the excess is on "Bund," partly due to the tendered and accepted rates being higher than those sanctioned and partly to the seat of the bund on the left sidl of the stream having had to be cleared far deeper and for much greater length than the originae project provided for.

III. Mr. Whiteley, Assistant Chief Engineer, on his inspection on two occasions, saw the extra work that had to be done between certain sections. The Superintending Engineer, Eastern Circle, reports that during his recent inspection of the tank he carefully checked the provisions now made for the bund work, and is satisfied that they are necessary and correct.

IV. The extra work, which could not have been avoided, was all authorized by this office. In the case of such large tanks, it is simply impossible to forecast what excesses may not be entailed to secure reliable bottom."

No. 232-4—1433-5, DATED BANGALORE, 10TH MARCH 1898.

ORDER THEREON.—The Government observe that the excess of Rs. 45,326 over the original estimate of Rs. 2,81,928 for the work is large, but as it is reported in para 4 of above Note, that the extra work, which could not have been avoided, was all authorized by the Chief Engineer, they have no other alternative than to sanction the revised estimate now submitted.

II. In Government (Public Works) Proceedings No. 517-20—3065-8, dated 24th June 1895, sanctioning the original estimate for Rs. 2,81,928, it was observed (para 3) that a "reduction was not improbable from reduction of rates," but the result has been quite the reverse, as the rates tendered with regard to some of the items were higher than those provided in that estimate.

III. In paras 3 and 4 of Proceedings quoted above, the acreage contributions, &c., were put down at about Rs. 92,420, and it was stated that the eventual revenue prospects of the work would be a return of more than 7 per cent on the net capital outlay. The Government hope that these expectations would be realized when the work is completed.

By Order,
W. McHUTCHIN,
*Offg. Secy. to the Govt., of Mysore, P. W. Dept.*
